Comments for Public Posting: Hi there. Please support this motion to assign the responsibility of bike path maintenance to the Department of Public Works. As someone who's already been a benefactor of their work in Marina Del Rey in bike lane repair, I would like to encourage the city of LA to continue giving them responsibility of more of the LA bike lanes. Thank you.

Comments for Public Posting: Please assign bike lane maintenance to the Dept. of Public Works. Bike lanes and bike paths are often not maintained well in the City of LA Public Works. I often see trash and other obstruction in the bike lanes. DPW has the capacity to keep these paths maintained. It makes sense to have responsibility rest within a single city department. The result will be safer bike lanes.

Comments for Public Posting: Bike lanes are great but only usable if free and clear. We need to make cycling safer for everyone.

Comments for Public Posting: Bike lanes and bike paths are often not maintained well in the City of LA. Public Works has the capacity to keep these paths maintained. It makes sense to have responsibility rest within a single city department. I believe you should assign the responsibility for maintaining City bicycle and multi-use paths to the Department of Public Works. Thank you.

Comments for Public Posting: I support the motion to assign responsibility for maintaining the City's bicycle and multi-use paths to the Department of Public Works. Far too often, bike lanes and paths in Los Angeles are poorly maintained—riddled with debris, cracked pavement, and overgrown vegetation. This creates serious safety hazards and discourages people from choosing active transportation. Public Works has the staff and infrastructure needed to ensure these facilities are consistently maintained. Centralizing responsibility within one department is a smart, efficient move that will improve coordination and accountability. If we're serious about making LA a bike-friendly city, basic maintenance is the minimum we must do. Please support this motion.

Comments for Public Posting: I support this motion to give Public Works responsibility for maintaining LA's bike and multi-use paths. Right now, these paths are often neglected — cracked pavement, overgrown plants, debris — it's frustrating and sometimes dangerous. Public Works has the resources to actually stay on top of this kind of maintenance. It also just makes sense to have one department clearly in charge. When no one knows who's responsible, no one takes action. If we want people to actually use these paths, we need to keep them clean, safe, and functional. This motion is a good step toward that.

Comments for Public Posting: The cleaning of bike lanes is of utmost importance. I've ridden my bike along, and encountered some pretty dramatic and scary trash. Thankfully most of my riding is during the day. Ive been almost impaled by a curtain rod pointing diagonally up. There have been all manner of broken glass, furniture other garbage and none of it belongs in the bike lanes. Please implement this measure city wide.
