Comments for Public Posting: I am a frequent user of the Hollywood bike lane as I do not own a car. I think that having bike lanes maintained by the Department of Public Works would be a huge benefit to me, as there are many times that the lanes are full of debris, leaves, and most dangerously, glass. These obstacles can be a real problem for bike riders, and it is telling that there are numerous community organizations that host bike lane clean-ups since the lanes are not in good shape. I support a city department cleaning the bike lanes as I believe it will make me and my girlfriend safer as we ride on the incredible infrastructure of the Hollywood bike lanes.
