Comments for Public Posting: I support all biking protections even at the cost of car convenience and an increase in traffic. Increase protections for cyclist and biking infrastructure.

Comments for Public Posting: Item #14 (23-1210) I am making a public comment about maintaining our cities bike lanes. Bike lanes are essential to decreasing traffic in our city which also promotes public health. Having a department such as public works, to support our bike lanes will increase regular maintenance of these lanes and encourage residents to choose biking as an alternative to driving. Thank You!
