Comments for Public Posting: Sun Valley: This is a motion way overdue. Traffic signals and pedestrian crossings are a hot mess in the Sun Valley community, especially at the busiest heavily burdened by truck traffic intersections such as Sunland & San Fernando, Penrose and San Fernando, Sheldon and San Fernando, Sunland and Glenoaks, Vineland and Vanowen, and nearly all intersections need immediate attention. Pedestrians never wait to cross San Fernando at Sunland because of the long wait time, in addition, signals are all out of sync. People wait for a long time sitting at a red light during the morning and afternoon rush hour traffic. Sunland Blvd. and San Fernando are extremely heavily burdened by heavy duty commercial traffic, and train tracks do not make it any easier. The flow of traffic, which is uncontrolled, vehicles sometimes run a red light because they wait too long. Many issues specific to Sun Valley. This motion will bring some long desired relief to both drivers and pedestrians who endanger themselves all the time at this intersection by rushing to cross at the train tracks. Issues of delayed signal and unregulated pedestrian crossings have been reported to DOT multiple times, to no avail.
