**Comments for Public Posting:** The passage of this motion is imperative to the health and well being of the thousands of residents in the San Fernando Valley. The Van Nuys Airport (VNY) has been allowed to grow at an unsustainable rate, and with disregard for the environmental as well as health impacts as a result. The increase in the amount of air traffic has become unbearable to those in the flight paths, surrounding neighborhoods, and the dozens of nearby schools. The NOISE, AIR POLLUTION and 24/7 Jet traffic has been allowed to exceed what is safe or acceptable. This motion is the beginning of what is needed to look into the ENVIRONMENTAL JUSTICE and equitable management of VNY property now and in the future. VNY is self-sustaining and does not need to be expanded or add any more air traffic, hangers or businesses. Expansion is NOT what the surrounding communities want or need. The expansions at VNY will only make it convenient and profitable for the few - at the expense of the many. This is not fair, nor justified.
