Comments for Public Posting: OVER EXPANSION AT VAN NUYS NOW SENDS HELICOPTERS AND JETS OVER THE SEPULVEDA BASIN AND THE WILDLIFE DISTRICT IN THE SANTA MONICA MOUNTAINS 24 HOURS A DAY! There are WAY too many Jets and Helicopters flying over the area now and now there are proposals to expand the airport even further. This a horrible idea. The impact of pollution from any VNY expansion needs to be understood and the VNY airport plan should be approved before additional expansion is approved. Please perform the requested assessments in 22-1339 and complete the VNY airport plan 22-1338 before approving additional airport expansion. Our neighborhood does not support an increase in jet charter and helicopter operations at VNY, a fully landlocked airport surrounded by densely populated neighborhoods and on the south by birds, trees, and wildlife of the Sepulveda Flood Basin LA City Council needs to represent the residents and business owners around the airport and show they care about the health and environmental impacts to surrounding communities. Please do everything possible to responsibly manage VNY airport growth. Please perform the requested assessments in 22-1339 and complete the VNY airport plan 22-1338 before approving additional airport expansion. Please prioritize the safety of LA citizens and delay the wishes of airport investors until appropriate planning has been completed.
