Council File No: 24-0008-S13

Comments for Public Posting: More displacement of RV and other vehicle residents in council district 11 without any plans for sufficient affordable or supportive housing. Rather than spending the time to open up a city-owned lot for 24-hour RV safe parking, Councilmember Park seems to only know how to punish people for being poor. That stretch of La Tijera in particular is as clean as a whistle, so it's clear that the only rationale for these oversized vehicle ordinances is that some housed neighbors or business complain. For La Tijera, that probably includes the older White man who drives down the block laying on his horn the entire time as a way to harass the vehicle residents (as well as their apartment neighbors). I guess that's who Traci Park's ideal constituency is. Pathetic excuse for a public servant...
