Comments for Public Posting: I am against the gondola, it will not help with traffic congestion. The idea of a Hollywood Bowl model park and ride bus system sounds terrific. The price needs to be lower than the parking at the stadium.

Comments for Public Posting: Getting to and from Dodger stadium is a chance for la to invest in programs that are fun, practical and make sense! 1. protected bikeways and bike valets and/or a dutch style bike barn 2. walkways, well lit, with interesting and fun art and sculptures to look at and be comforted by, along the way. Think "9 stations of the cross" but for all faiths and wiccans and atheists 3. A real live retro style tram on rails with a cute bell to alert pedestrians LA could have so much fun with these, instead of suffering under a megalomaniacs squalid vision of a depressing, demented future.
