**Comments for Public Posting:** Dear Councilmembers: I support CD1 Council Member Hernandez's motion to put the LAART gondola project on hold at the City level. The proposed gondola project is not the answer to easing traffic congestion at Dodger's stadium. The Gondola project will not solve the transportation issue. It will also be an environmental blight that will have an impact on city residents nearby, and intrude into a state park. The proposed Gondola project is costly, and won't solve the problem of congestion. I urge the city council to protect vulnerable communities and parks.
