**Council File No:** 24-0011-S4

**Comments for Public Posting:** I support the motion to put a hold on this project and do a comprehensive traffic study. With the negative history of Dodger Stadium displacing locals and not listening to what Angelenos need, this project needs to be put on hold and more studies need to be done.

**Comments for Public Posting:** The McCourt Gondola is unnecessary and puts money over people first. Please consider the communities in Los Angeles this will be affecting.

**Comments for Public Posting:** I support the motion to oppose the LA ART Gondola project. I don't want an eye sore taking up precious space in a beautiful area in this city. I want to be able to enjoy all of LA State Historic Park with my friends and family, as it is, not with a gondola hanging over our heads. I want to be able to take multiple buses into Chinatown and ride the Dodger Stadium Express. Please support public transportation, please listen to the voices of our communities. Not a rich previous Dodger owner (who made the team bankrupt) who only is interested in serving him and your pockets. Please think of our future and not your current gain.

# STOP THE GONDOLA

WASTE OF TIME. TOO EXPENSIVE. NO REAL COMMUNITY INPUT

Metro isn't following its own rules. We shouldn't give Frank McCourt free public land.

Never repeat Chavez Ravine!

LA Metro made a backroom deal with Frank McCourt.

Will do little to curb traffic or reduce emissions.

Enhance the Dodgers Express with a robust zero-emission shuttle bus system.

Don't allow taxpayers to pay for a billionaire's vanity project.

## \$500,000,000

HIGH COST: The gondola is estimated to cost \$500 million to build.

More gentrification, displacement and pollution.
