Comments for Public Posting: Please DO NOT APPROVE OR BUILD THIS GONDOLA. My tax dollars would be far better spent improving Los Angeles' existing Metro system or expanding safe bike infrastructure that the community actually needs and uses. This gondola is impractical and would cause major disruption to my neighborhood, including noise from construction, long-term impacts on the local ecosystem, and increased traffic around Dodger Stadium. It's a vanity project that benefits one billionaire, not the people who live here. Our community deserves investment in real, equitable transit solutions. Not a costly, unnecessary project pushed through without ANY consideration for residents. I strongly oppose this gondola and urge you to prioritize sustainable, community-driven alternatives instead.
