**Council File No:** 24-0114

**Comments for Public Posting:** Special Agenda, item 24-0114 re Oceanwide. Thankfully, the motion does not mention removal of the graffiti. Adding a significant matter such as the Graffiti-art could be a violation of the Brown Act. However, ordering the removal of the graffiti which much of Los Angeles and the world regard as true art will be myopic. The project may never be finished and there is no reason to destroy the work of artists which is harming no one. One safety change could be to require the artists to work from the inside. This entire matter has become a public matter and KDL needs to think through his plans more carefully. Thus, the motion is OK provided it does not address the graffiti art at this time. As the saying goes, "Look before you leap."
