Comments for Public Posting: I support and urge the Council to support Item #15 (24-0173). Implementation of the voter-mandated Measure HLA cannot come soon enough, as the various street improvements prescribed by the measure will provide much-needed facilities ahead of the Olympics that make our streets safer and more comfortable to use. Noting the importance of the City hosting global events like the World Cup and the Olympics, and also the risk of the City being sued for failing to adhere to the measure, the City should do all in its power to implement Measure HLA with previously grant-funded projects. Please support Item #15 (24-0173), and thank you for your attention to this matter.

Comments for Public Posting: I am writing in support of this item. Measure HLA needs to be implemented quickly and effectively. The infrastructure improvements as part of measure HLA will be crucial for improving the lives of Angelenos as well as visitors. Street improvements are necessary for the success of upcoming mega events like the 2026 World Cup and of course for the "car-free" 2028 Olympic Games.
