A Neighborhood Council Community Impact Statement (CIS) has been successfully submitted to your Commission or City Council. We provided information below about CISs and attached a copy of the CIS.

We encourage you to reach out to the Community Impact Statement Filer to acknowledge receipt and if this Community Impact Statement will be scheduled at a future meeting. Neighborhood Council board members are volunteers and it would be helpful if they received confirmation that you received their CIS.

The CIS process was enabled by the Los Angeles Administrative Code §Section 22.819. It provides that, "a Neighborhood Council may take a formal position on a matter by way of a Community Impact Statement (CIS) or written resolution." NCs representatives also testify before City Boards and Commissions on the item related to their CIS. If the Neighborhood Council chooses to do so, the Neighborhood Council representative must provide the Commission with a copy of the CIS or resolution sufficiently in advance for review, possible inclusion on the agenda, and posting on the Commission's website. Any information you can provide related to your agenda setting schedule is helpful to share with the NC.

If the CIS or resolution pertains to a matter *listed on the Commission's agenda*, during the time the matter is heard, the designated Neighborhood Council representative should be given an opportunity to present the Neighborhood Council's formal position. We encourage becoming familiar with the City Council's rules on the subject. At the Chair's discretion, the Neighborhood Council representative may be asked to have a seat at the table (or equivalent for a virtual meeting) typically reserved for City staff and may provide the Neighborhood Council representative more time than allotted to members of the general public. They are also permitted up to five (5) minutes of time to address the legislative body. If the CIS or resolution pertains to a matter *not listed on the agenda*, the designated Neighborhood Council representative may speak during General Public Comments.

We share this information to assist you with the docketing neighborhood council items before your board/commission. If you have questions and/or concerns, please contact the Department of Neighborhood Empowerment at empowerla@lacity.org.

The Board approved this CIS by a vote of: Yea(13) Nay(0) Abstain(0) Ineligible(0) Recusal(0)

Date of NC Board Action: 08/06/2024

Type of NC Board Action: For

Impact Information

Date: 09/07/2024

Update to a Previous Input: No

Directed To: City Council and Committees

Council File Number: 24-0456

City Planning Number:

Agenda Date: 09/07/2024

Item Number:

Summary: The Eagle Rock Neighborhood Council (ERNC) supports CF 24-0456 and believes that it is essential that the Department of Water and Power (LADWP) and the Bureau of Sanitation (LASAN) monitor for, and report on, the presence of these chemicals in the City's drinking water supply. In 2023, for the first time ever, the Los Angeles Department of Water and Power detected Polyfluoroalkyl and Perfluoroalkyl Substances (PFAS) in drinking water wells in the City of Los

Angeles. Known as “forever chemicals,” PFAS have been directly linked to a wide range of health concerns. It is our expectation that LADWP and LASAN also develop an action plan to treat potable water if these substances are detected.

CIS in Support of CF 24-0456, Polyfluoroalkyl / Perfluoroalkyl Substance (PFAS) / Forever Chemicals / Pollock Well Field / Tujunga Well Field / U.S Environmental Protection Agency / Safe Drinking Water

August 7, 2024

Los Angeles City Council
200 N. Spring Street
Los Angeles, CA 90012

Dear Council Members:

We declare that on August 6, 2024, a Brown Act noticed public meeting was held by the Eagle Rock Neighborhood Council (ERNC) at which a quorum was present, and that the following CIS passed unanimously:

The Eagle Rock Neighborhood Council (ERNC) supports [CF 24-0456](#) and believes that it is essential that the Department of Water and Power (LADWP) and the Bureau of Sanitation (LASAN) monitor for, and report on, the presence of these chemicals in the City's drinking water supply.

In 2023, for the first time ever, the Los Angeles Department of Water and Power detected Polyfluoroalkyl and Perfluoroalkyl Substances (PFAS) in drinking water wells in the City of Los Angeles. Known as "forever chemicals," PFAS have been directly linked to a wide range of health concerns. It is our expectation that LADWP and LASAN also develop an action plan to treat potable water if these substances are detected.

Please place this letter in the case file, and acknowledge its receipt via email to: executive@ernc.la.

Sincerely,

Michael Sweeney, President
Eagle Rock Neighborhood Council
