## SECTION 1

2024-25

### Overview

## **Preface**

“Exhibit B, Budget Summary Receipts” included in Section 1 of the “2024-25 Proposed Budget” itemizes City revenue by source. Additional information on 2023-24 and 2024-25 receipts is displayed in the “Detailed Statement of Receipts” included in Section 3 of that document. Revenue information is also displayed in other parts of the budget such as “The Detail of Departmental Programs.”

This “Revenue Outlook” is a supplement to the 2024-25 Proposed Budget and provides in one place, supporting information for all General Fund revenue estimates and for estimates for certain special funds that directly finance the budget.

Section 1 of the Revenue Outlook provides an overview, major revenue assumptions, and a five-year revenue forecast. Section 2 provides historical perspective and current information on each General Fund revenue, except for the category “Departmental Receipts,” which is provided in Section 3. Section 4 provides similar information for selected special fund revenue directly financing the budget.

# General Fund Revenue Summary

## Fiscal Year 2024-25

(Thousand Dollars)

2022-23	2023-24			2024-25
ACTUAL	ADOPTED	REVISED		PROPOSED
2,562,881	2,640,250	2,636,562	Property Tax	2,766,499

## **Revenue Assumptions for Fiscal Year 2024-25**

Since the onset of the COVID-19 pandemic, City General Fund revenue has experienced increased variability across its receipts, complicating the development of reliable revenue estimates. More than 70 percent of the General Fund revenue is derived from seven major taxes: property, utility, business, sales, transient (hotel) occupancy, parking occupancy, and documentary transfer taxes, all of which are susceptible to changing economic conditions. In just five years, these conditions have encompassed a worldwide pandemic, business closures, travel restrictions, supply chain disruptions, swings in the real estate market, forty-year high inflation, rapid federal reserve rate increases, peaks in energy prices, labor strikes, and changing consumer behavior and business operations.

Extraordinary economic change began in 2020 with the COVID-19 pandemic, when public health measures meant to control its spread brought on massive disruption to businesses, the economy, and society-at-large. City unemployment increased from 4.7 percent in February 2020 to 19.1 percent three months following the most stringent public health restrictions. Business closures and travel restrictions contributed to unprecedented declines in sales, transient occupancy (TOT), and parking occupancy (POT) taxes for the last quarter of 2019-20 and throughout 2020-21. Conversely, record-low mortgage rates and growing demand for homes better suited for pandemic life pushed the documentary transfer tax past its 2005-06 real estate boom peak.

While most pandemic-era restrictions had ended by 2021-22, persistent supply chain issues and increasing fuel costs contributed to new inflationary pressure in pricing of goods and services. While consumers still felt flush, partly with the assistance of federal and state relief programs, City tax revenues benefited as these cost increases were passed along, allowing sales tax, TOT and POT to quickly recover pandemic-era losses by the close of 2021-22. Additionally, documentary transfer tax continued to grow—30.5 percent above the prior year—to reach a new peak of \$308.8 million. Conversely, property tax receipts, which typically lag economic conditions by a year, saw below-average growth with assessed value increases capped under 2020's low inflation environment.

By 2022-23, the real estate market reversed course under efforts to control inflation. After more than a year of ever-increasing consumer costs, the Federal Reserve had initiated a series of rate increases in March 2022. By June 2022, the consumer price index reached 9.1 percent, a rate not seen since the early 1980s. Subsequent federal funds rate increases, intended to cool the economy, rapidly increased mortgage interest rates from 2.8 percent to 8.8 percent. The real estate market, for which sales volume began to decline in early 2022, saw decreasing property prices by the end of calendar year 2023. Since then, the combined decline in property sales volume and price has rapidly reduced documentary transfer taxes by -\$162.1 million over the past two fiscal years from its all-time high of \$311.5 million in July 2022, a -52.0 percent drop. Property tax, lagging real estate market conditions, saw higher tax base growth with the reassessment of properties sold the prior year, and the full 2.0 percent inflation adjustment as allowed by Proposition 13. Other 2022-23 revenues fared better as well. POT and TOT receipts

returned to pre-pandemic levels. Sales and business taxes continued to benefit from increasing prices. Increasing energy costs, a contributor to inflation, pushed natural gas users tax and franchise receipts to atypical highs.

By 2023-24, the federal funds rate had increased to 5.5 percent (from 0.25 percent in February 2022), with its predicted impact on slowing the economy. Local unemployment, after recovering to 4.7 percent in September 2022, has been steadily increasing since and is currently at 5.4 percent. However, inflation has remained above the Federal Reserve's 2.0 percent target despite rate increases. Since declining to 3.0 percent in December 2023, inflation too has been increasing in 2024. Sales and business tax receipts, which in 2022-23 benefitted from price increases to goods and services, has seen consumer demand drop in 2023-24 under continuing inflation and increasing unemployment. Extended entertainment industry strikes for the first half of the fiscal year amplified the impact to receipts. TOT has also fallen short of budgeted revenue that had assumed increasing international tourism from China after its relaxation of extended pandemic-driven travel restrictions. International tourism has been lower, partly due to the stalling of the post-pandemic economic recovery in China. Property tax, for which reported assessed value growth of 5.9 percent exceeds budgeted growth of 5.0 percent, is predicted to end below budget partly due to lower supplemental receipts, higher refunds and delinquent payments.

The current economic conditions are anticipated to persist into 2024-25, limiting growth in the City's General Fund taxes. The proposed budget assumes 3.6 percent growth for the City's core General Fund tax receipts and 3.5 percent for all ongoing General Fund revenue (compared to their 20-year average growth of 4.4 percent and 4.2 percent, respectively). Growth in sales tax and business taxes remain constrained by consumer demand dampened under inflation and aligns with forecasted GDP growth. TOT's below-average growth assumes the current fiscal year's trend in receipts continues, based on industry forecasts. Property tax growth is anticipated to be lower than average following the second year of declining real estate sales and stagnant home value appreciation. Documentary transfer tax, however, assumes slightly above average growth as both sales and home values see modest increases as homebuyers acquiesce to the higher interest rate environment. The likeliest risk to forecasted receipts is continuing inflation and high interest rates.

The following is a summary of revised 2023-24 and proposed 2024-25 estimates. Estimates are based on current trends in receipts, analyses conducted by departments and relevant industry forecasts. Additional detail on revenue assumptions are included in Section 2 and Section 3 of this Revenue Outlook.

## **2023-24 Revised General Fund Revenue**

The adopted 2023-24 budget of \$7.90 billion represented a 2.9 percent increase in ongoing revenues above the 2022-23 revised budget. The estimate, below the 20-year average growth of 4.0 percent, represented modest growth assumptions during a period of economic transition from pandemic recovery to an increased inflation and high interest

rate environment. The total revised General Fund revenue estimate of \$7.72 billion for 2023-24 includes -\$179.8 million (-2.3 percent) in net reductions to adopted receipts and represents a mere 0.3 percent increase from 2022-23 actual ongoing receipts. Revised General Fund tax receipts are -0.9 percent lower than actual 2022-23 tax receipts, representing a considerable turnaround after two years of post-pandemic recovery in tax revenues.

Significant negative changes to 2023-24 revenue estimates are linked to persistent inflation and successive interest rate increases by the Federal Reserve intended to slow further price increases. Despite the higher reported growth in the City's assessed value (5.9 percent) than the County Assessor's May 2023 estimate (5.0 percent), property taxes receipts are projected to be -\$3.7 million lower than budget. Coupled with the erratic timing of prior year property tax year receipts between the City's fiscal years, this shortfall can be attributed to the real estate market decline triggered by higher mortgage rates, with lower supplemental receipts, higher refunds and increasing delinquencies resulting. Revised tax increment receipts from the former Community Redevelopment Agency (CRA) are -\$6.2 million below the adopted due to the same real estate trends impacting supplemental property tax receipts. The revised documentary transfer tax estimate is -\$40.4 million below the adopted budget, as well as -\$63.0 million below 2022-23 actual receipts. This drop follows the -\$87.5 million decline in 2022-23 from 2021-22 actual receipts. The higher mortgage rates have increased borrowing costs for home buyers and discouraged listings from owners who have borrowed at lower rates, placing downward pressure on price and supply, respectively. The two-year -\$150.5 million drop is not atypical for this volatile tax where declines (and increases) in both property sales and prices multiply the impact to receipts.

Business and sales tax receipts are anticipated to miss adopted budget estimates by -\$26.3 million and -\$43.4 million respectively, with lower growth due in part to the impact of inflation on consumer demand, extended entertainment industry strikes and the shift to online and third-party purchasing that sends what had been previously local sales tax revenue to other jurisdictions. The revised TOT estimate is -\$18.4 million below budget; although this still represents growth above 2022-23 actual receipts.

Other decreases to non-tax revenues include: -\$52.8 million in grant receipts, which includes the delayed receipt of Federal Emergency Management Agency (FEMA) reimbursements, delayed department grant receipts, and unrealized department grant receipts (-\$41.7 million, -\$3.9 million, and -\$7.2 million respectively); -\$11.4 million in departmental receipts discussed in greater detail below; -\$7.5 million in reduced parking fine revenue; and -\$0.5 million for reduced residential development tax.

The total estimate for departmental receipts, consisting of license, permit, fees, fines and reimbursements, has been reduced by a net -\$11.4 million (-0.8 percent) mainly due to the decrease in: special funded reimbursements which are driven by factors such as Cost Allocation Plan (CAP) rates, vacancies, salary assumptions and availability of revenue (-\$54.9 million); Airport reimbursements mainly for Police and Contract Administration (-\$6.2 million); Harbor reimbursements primarily for Fire, City Attorney, Contract

Administration and Transportation services (-\$3.6 million); Water and Power (DWP) reimbursements due to Office of Public Accountability vacancies (-\$2.5 million); MTA reimbursements based on estimated service levels offset by prior-year payments (-\$17.6 million); other departmental receipts (-\$21.4 million) such as fire plan checking, filming and other permits revenues; implementation delay for excessive false alarm fees (-\$11.8 million); police excessive false alarm, impound fees and other permits (-\$8.4 million); and, parking meter and lot maintenance, preferential parking and filming permits (-\$3.6 million). Offsets to these reductions include: higher reimbursements for Personnel workers' compensation from proprietary departments (\$2.6 million); an increase in State mandated payments for prior-year police claims (\$29.6 million); ambulance billing payments from the California Department of Health Care Services' reimbursements for Public Provider Ground Emergency Medical Transport Intergovernmental Transfer (PP-GEMT-IGT) program and prior-year receipts for GEMT (\$43.7 million); and one-time receipts from capital project reimbursements, insurance refunds for COVID expenditures, Project Roomkey, and other reimbursements from outside agencies (\$21.4 million).

Together, total decreases to the adopted budget total -\$210.6 million. Offsetting these adjustments are upward revisions totaling \$30.8 million. The revised estimates for total utility user taxes have been increased by a net \$13.6 million, with higher electricity (EUT) and communication (CUT) users tax receipts (\$27.5 million and \$1.0 million, respectively) offsetting a steeper decline gas users taxes than assumed in the budget and accordingly revised downward by -\$14.9 million. However the revised gas user tax estimate is now closer to historical revenue. After 2022-23 winter natural gas prices more than doubled from 2021-22, current year prices have fallen below 2021-22 levels, with gas users receipts expected to be -\$3.8 million lower than 2021-22 actual receipts. POT is the sole core general fund tax receipt that is projected to end near planned receipts with a \$0.5 million increase to the revised estimate. Other increases to the revised budget include: an \$8.2 million increase to the Power Revenue Fund transfer; \$4.6 million in higher interest earnings; \$3.1 million in net franchise income adjustments; and \$0.8 million in lesser adjustments.

## **2024-25 Proposed General Fund Revenue**

Total proposed General Fund revenue for 2024-25 is \$7.99 billion, an \$82.9 million (1.0 percent) increase above 2023-24 adopted budget estimates. The proposed amount, however, represents an increase of \$262.7 million (3.4 percent) above revised revenue estimates for 2023-24. However, total growth is closer to 3.5 percent after excluding 2023-24's \$136.4 million Reserve Fund transfer and other one-time receipts in the revised and proposed budget estimates. This growth is below the 20-year average of 4.2 percent for ongoing receipts, and is reflective of lower-than-average growth assumptions used for City's General Fund taxes (3.6 percent growth compared to the 20-year average of 4.4 percent). Assumptions are based on the current trend in receipts, historical growth, and economic and industry-specific forecasts. Shaping these projections are assumptions that growth will continue to be constrained by higher interest rates and lower, but persistent inflation, among other factors.

Lower growth in ongoing receipts is augmented by \$218.0 million in one-time revenue, of which \$208.2 million is derived from FEMA reimbursements for COVID-19 response efforts. Other one-time receipts include other one-time grants (\$3.5 million) and miscellaneous department receipts (\$6.3 million). No Reserve Fund transfer is included in the proposed budget.

### **Fiscal Year 2024-25 Growth Summary for Economy Sensitive Taxes**

<b>Above Average</b>	<b>Average Growth</b>	<b>Below Average</b>
<ul style="list-style-type: none"> <li>• UUT-Communication</li> </ul>	<ul style="list-style-type: none"> <li>• UUT- All</li> </ul>	<ul style="list-style-type: none"> <li>• Property Tax</li> <li>• Sales Tax</li> <li>• Documentary Transfer</li> <li>• Business-All activities</li> <li>• Transient Occupancy (TOT)</li> <li>• Parking Occupancy (POT)</li> <li>• UUT-Electricity and Gas</li> </ul>

---

Estimated growth compared to 10-year averaged growth.

Lower total growth in the City's seven major taxes from the revised 2023-24 estimate is based on economic indicators for consumer demand, energy prices, and the real estate market, and other considerations. Property tax assumes below-average growth (4.6 percent) in assessed value; although growth in total fiscal year receipts is higher (4.9 percent) with the timing of secured receipts for the current property tax year assumed to be delayed under increasing delinquencies. Also, contributing to lower growth are assumptions about supplemental receipts and refund activity based on current year receipts. CRA property tax increment growth is likewise anticipated to be lower based on supplemental activity.

Documentary transfer tax assumes net 6.7 percent growth with modest increases assumed in both sales volume and price appreciation. Assumptions are guided by real estate industry forecasts, which assume that some reduction in interest rates will improve affordability and increase listings. While estimated receipts are between levels received in 2012-13 and 2013-14, fiscal years that marked the recovery from the housing bust, downside risks remain should anticipated rate cuts not materialize.

Sales tax growth is expected to grow by 1.5 percent following the current fiscal year's -4.5 percent decline, with total receipts of \$691.0 million only slightly above receipts recorded in 2021-22. In addition to curbed demand from inflation, average sales tax growth has been shrinking as growing use of online and third-party purchasing has shifted revenue to other jurisdictions. Like sales tax, lower growth (2.0 percent) in business tax receipts is assumed for 2024-25 after a current year decline in receipts (-0.6 percent). Some of the lower growth in business tax receipts is attributed to declining cannabis activity, which has fallen over the past three years after peaking early in the pandemic.

Both TOT and POT have stabilized since the dramatic pandemic-driven drops and subsequent recovery. TOT growth assumptions are based on the local forecasts and

growth of 4.8 percent represents an improvement over 2023-24's revised growth of 4.5 percent. Growth in receipts from hotel activity is lower than short-term rental activity while international tourism from China remains curbed under a weakened post-pandemic economy. POT receipts, the only tax receipt anticipated to meet 2023-24 budgeted expectations, assumes the same growth (3.7 percent) in 2024-25 under the continuing economic conditions.

The combined components of the utility users tax will grow by 1.3 percent, which is near average growth. However, the CUT decline (-3.4 percent), reflective of declining landline usage and cellular voice plan pricing, is the only component that uses average "growth" assumptions. The gas users tax is expected to rebound after 2023-24's drop, based on energy forecasts for higher natural gas prices and consumption; although, average growth is higher due to increasing fluctuations in price. The EUT billing estimate was provided by the Department of Water and Power (DWP) and has been adjusted for actual receipts. Growth is lower than average as DWP anticipates lower retail sales, continuing improvements in energy efficiency, and increased adoption of solar.

Other positive growth in non-tax revenues includes a net \$44.2 million (3.3 percent) increase from departmental receipts due to special fund related reimbursements based on the updated CAP and availability of revenue (\$95.1 million); Airport reimbursements for Fire, City Attorney and Police services (\$6.5 million); Harbor reimbursements for Fire services (\$4.7 million); and other departmental receipts such as fire and police permit fees (\$10.7 million). The increases in departmental receipts are offset by lower estimates for ambulance billing (-\$5.7 million); DWP reimbursements for City services (-\$1.1 million); MTA reimbursements (-\$15.7 million); one-time reimbursements (-\$20.6 million); and state mandated reimbursements (-\$29.6 million). Other positive adds to the budget include a net \$6.6 million (4.7 percent) increase in franchise income components; \$2.9 million (3.6 percent) in higher interest earnings based on Office of Finance assumptions for treasury pool investment returns; and \$2.9 million (3.6 percent) in added parking fine revenue, as estimated by the Department of Transportation.

Offsetting these increases are a -\$17.2 million reduction to the Power Revenue Fund transfer based on DWP's assumptions for net 2023-24 fund income and a -\$9.2 million reduction to the Special Parking Revenue Fund transfer.

There are current and ongoing economic risks to the revised 2023-24 and proposed 2024-25 estimates including: persistent inflation, high interest rates, increasing unemployment, volatile energy costs, supply chain issues, fragility in the Chinese economy, and armed conflicts in Europe and the Middle East. Should conditions worsen among these factors, the national and local economy may weaken, dampening projected receipts. The greatest risk at this time is posed by inflation and interest rates, where there is concern that the Federal Reserve may delay anticipated reductions to the federal funds rate. There is additional risk (up to \$60.0 million) for anticipated reimbursements from FEMA for Project Roomkey expenditures, which may be reduced according to subsequent FEMA guidance. This risk has been addressed by an equivalent appropriation in the Reserve Fund.

The following two graphs provide a perspective on actual and forecasted growth for the US economy and the City's core General Fund taxes. Revised, proposed, and forecasted revenue growth assumptions for 2023-24 through 2028-29 follow. The balance of this book provides detail on each General Fund revenue source and selected special fund revenues.

# Gross Domestic Product

Actual and projected percent change in real GDP by quarterly, annualized rate

Survey Conducted by Wall Street Journal (April 2024)

The effect of the change in gross domestic product (GDP) can be seen in the City's receipts as soon as the following quarter. The pandemic's impact to GDP marks the first recession since the Great Recession. Consecutive quarterly declines at the beginning of 2022 demonstrated the weakness of the post-pandemic recovery, but without the job loss that is associated with a recession. Despite lingering inflation and increased borrowing rates economists surveyed in April 2024 have predicted a lower risk of recession (29 percent) compared to 61 percent this time last year. The forecasted GDP above reflects negligible growth for the time period that corresponds to the City's 2024-25 fiscal year.

## Growth of Seven General Fund Taxes

Major General Fund taxes currently account for more than 70 percent of all General Fund revenue, while the balance includes fees and fines, cost reimbursements, transfers from other funds, franchise revenue, interest income and other miscellaneous receipts. Since 1990, growth in the seven General Fund taxes has averaged 3.8 percent annually, which includes periods of high economic growth during the real estate and tech booms, as well as the subsequent declines during the busts. The impact of the Great Recession can be seen in 4.8 percent drop in revenue in 2009-10 and corresponding dip in total tax receipts. The variability in growth between 2015-16 and 2017-18 reflects the unwinding of the triple flip and delayed sales tax revenue. High growth in 2018-19 reflects increased business tax receipts from recreational cannabis business activity.

The COVID-19 pandemic triggered two-year declines in transient occupancy, parking occupancy and sales tax revenue and reduced growth in other economy sensitive revenues, seen as low and negative growth rates in 2019-20 and 2020-21. High growth in 2021-22 and 2022-23, demonstrates the speed of recovery in these receipts compared to the extended recovery of the Great Recession. Adopted 2023-24 growth assumed below-average growth indicative of an anticipated economic slowdown. Revised 2023-24 receipts are anticipated to end below prior year receipts in an environment of high financing rates, high inflation, labor actions, and lower tourism among other factors. Average growth in on-going receipts for the proposed budget and revenue outlook are slightly higher than the average 3.8 percent historical growth, but lower than the average 4.4 percent growth of the past 20 years, the latter of which gives greater weight to post-pandemic recovery growth.

# General Fund Revenue Outlook

## Fiscal Years 2024-25 through 2028-29

### General Assumptions

Economic Growth	<p>This forecast is based on long-term historical experience, with total City revenue growth for outgoing years, excluding one-time revenues, estimated between 3.5 percent and 4.4 percent. Unless otherwise noted, individual revenue sources reflect continuing growth in fiscal years 2024-25 through 2028-29 based on historical average receipts.</p> <p>The impact of changing inflation on revenue growth assumptions for 2025-26 through 2028-29 is not included in this revenue outlook, as these estimates are used in conjunction with inflation-neutral expenditure estimates in producing the five-year budget outlook. Annual growth may be higher than reported on this forecast.</p>
Property Tax	<p>Fiscal year 2023-24 revised receipts reflect the County Assessor's estimated growth in assessed value of 5.9 percent for the City, decreased by the early remittance of secured property taxes in 2022-23, and decreased supplemental receipts, increased refunds and delinquent payments. The County Assessor has not provided a preliminary estimate for property tax growth for 2024-25. Below-average assessed value growth of 4.6 percent assumes the full two percent inflationary adjustment to secured receipts and continuing trends in other receipts reflecting the instability in the real estate market. Total 2024-25 growth appears higher with the assumption that secured property tax revenue between May and August will return to its historical remittance pattern. 2025-26 and outgoing years assume growth increasing to 10-year average growth.</p>
Redirection of ex-CRA Tax Increment Monies	<p>This revenue category was first received in June 2012. Growth is irregular partly due to one-time miscellaneous revenues that may occur in any given year. The June 2024 payment is based on the County's Auditor-Controller's April estimate. The estimate for 2024-25 reflects the adopted payment schedule (ROPS), assumptions based on prior disbursements, and trends seen in supplemental property tax receipts. Additional one-time miscellaneous revenue from surplus property sales are included in the 2025-26 estimate.</p> <p>Growth in subsequent fiscal years align with property tax growth assumptions.</p>
Utility Users Tax <ul style="list-style-type: none"> <li>• Electricity Users Tax</li> <li>• Gas Users Tax</li> <li>• Communication Users Tax</li> </ul>	<p>Electricity users tax (EUT) revenue for 2023-24 and 2024-25 are provided by the Department of Water and Power (DWP) and are derived from billing estimates based on the August 2023 load forecast which includes assumptions for low growth in retail sales. Outgoing years assume average growth.</p> <p>Natural gas users tax revenue for 2023-24 reflects receipts-to-date and the rate reduction stemming from class-action lawsuit settlements which is anticipated to conclude this year. The 2024-25 estimate is based on the U.S. Energy Information Administration is forecast for modest increases to price and consumption. Below-average growth is assumed for outgoing years because of price volatility.</p> <p>Communication users tax (CUT) revenue continues to decline with strategic wireless plan pricing and decreased landline use. The average decline is assumed for 2024-25 revenue and outgoing years.</p>

# General Fund Revenue Outlook

## Fiscal Years 2024-25 through 2028-29

### General Assumptions

Departmental receipts	Departmental receipts in 2023-24 has been reduced primarily to reflect lower reimbursements from special funds, proprietary departments, the Los Angeles County Metropolitan Transportation Authority (LACMTA) and other fee and permit revenues. These lower receipts are partially offset by higher reimbursements for ambulance transports, state mandated claims and one-time reimbursements. Related costs reimbursements for 2023-24 and 2024-25 are based on updated Cost Allocation Plan rates, and vacancy, salary and service level assumptions. 2024-25 assumes growth of 3.3 percent mainly due to special fund, services to proprietary departments and other fees and permit revenues. State mandated, LACMTA reimbursements, emergency transport, one-time reimbursements are estimated to decline. Outgoing years assume average growth for ongoing receipts.
Sales Tax	The change in sales tax revenue growth between 2023-24 and 2024-25 reflects decreasing consumer demand under inflation, the Federal Reserve's action to increase interest rates, and extended labor actions, as well as the continuing shift of receipts to other jurisdictions. Growth is consistent with forecasts for taxable sales with average growth returning in 2028-29.
Business Tax	Business tax revenue for 2023-24 and 2024-25 for non-cannabis revenue is provided by the Office of Finance, and is based on current renewal activity. Outgoing years assume growth consistent with forecasted taxable sales.  2023-24 receipts from cannabis activity represents a third year of decline from the pandemic-era high, consistent with statewide trends. 2024-25 receipts assume a lesser decline with receipts for outgoing years assumed to be flat.
Transient Occupancy Tax	Modest growth in transient occupancy tax (TOT) revenue from hotels and short-term rentals from 2023-24 through 2024-25 are based on the tourism industry forecast that reflect a delay in the return of Chinese tourism. The industry forecast predicts increasing growth for 2026-27 and outgoing years.
Power Revenue Transfer	The Power Revenue transfer amount for 2023-24 has been increased to reflect adjustments made for actual 2022-23 power system revenue. The transfer for 2024-25 is based on the estimate included in the proposed budget for DWP, which is derived from assumptions for estimated 2023-24 Power System revenue. The final transfer amount may be adjusted to conform to actual 2023-24 power system revenue in accordance with audited financial statements. Outgoing years assume an average of amounts transferred since a transfer limit was established.
Documentary Transfer Taxes	Documentary transfer tax revenue is volatile and can have large swings when home sales volume and prices move together. Such has been the circumstances for 2022-23 and 2023-24, for which the current year revenue estimate has been reduced to reflect the impact of declining home prices and sales during a period of higher mortgage rates. 2024-25 revenue is based on real estate industry forecasts for a muted recovery in sales and volume, contingent on anticipated mortgage rate reductions. 2025-26 and 2026-27 years assumes higher-than-average-growth as real estate market both components recover. Outgoing years assume average growth.
Parking Fines	Parking fine estimates for 2023-24 and 2024-25 are provided by the Department of Transportation. Receipts dropped with parking occupancy tax during the pandemic but did not recover alongside it. Outgoing years are assumed to remain steady based on recent trends in monthly receipts.
Parking Occupancy Tax	After a significant drop and recovery in parking occupancy revenue during and after the pandemic, growth has normalized. Parking occupancy tax estimates for 2023-24 and 2025-26 are based on the current year growth in receipts. 2025-26 and outgoing years assume historical growth.

# General Fund Revenue Outlook

## Fiscal Years 2024-25 through 2028-29

### General Assumptions

Franchise Income	Revised franchise revenue in 2023-24 has been increased to capture changes in anticipated receipts. The 2024-25 estimate is based on average growth for individual components. Outgoing years assume receipts remain flat pending the outcome of litigation related to various franchise components.
Special Parking Revenue	Additional one-time receipts of \$8.8 million above the base transfer of \$23.5 million is included in the 2023-24 transfer amount. 2024-25 assumes a transfer below the \$23.5 million base transfer. Subsequent years assume a lower base transfer amount of \$16.5 million reflective of projections for lower surpluses.
Interest Earnings	The interest earnings estimates for 2023-24 and 2024-25 were provided by the Office of Finance in April, reflecting its current assumptions for interest earnings. Subsequent years assume interest earnings based on the proposed year growth.
Grant Receipts	Grant revenue is variable. Estimates for 2023-24 and 2024-25 ongoing grant receipts are provided by the various departments receiving grant funds, with average growth assumed for outgoing years. The estimate for 2023-24 receipts from the Federal Emergency Management Agency for reimbursement of pandemic-response costs has been reduced to reflect delayed receipts and the transfer of anticipated receipts directly to special funds for loan repayments. The 2024-25 estimate represents the balance of anticipated FEMA receipts, which includes approximately \$60 million at-risk receipts for Project Roomkey expenditures. An equivalent appropriation in the Unappropriated Balance offsets the potential reduction.
Tobacco Settlement	Estimates for 2023-24 and 2024-25 are based on the 2022-23 remittance. No change is assumed for outgoing years.
Residential Development Taxes	Changes in the residential development tax are correlated with building permit activity. The decreased estimate for 2023-24 is based on receipts-to-date and is likely impacted by increased construction financing costs. 2024-25 revenue assumes gradual improvement in receipts, and permitting activity is assumed to remain stable in outgoing years.
State Motor Vehicle License Fees	The original revenue transfer was eliminated by the State in fiscal year 2010-11. However, a special apportionment of excess revenue remains, with prior-year remittances falling between \$1.5 million and \$3.2 million. The 2023-24 revised estimate is based on the actual remittance, which is also used for 2024-25 and outgoing years' revenue estimates.
Reserve Fund and Budget Stabilization Fund Transfers	A Reserve Fund transfer was included in the 2023-24 adopted budget to supplement lower growth assumptions. No Reserve Fund or Budget Stabilization Fund (BSF) transfer to the General Fund is included in the proposed year. No transfers from the Reserve Fund or BSF are assumed for outgoing years.

Property tax is almost one-third of all City General Fund Revenue. The following pages outline the many components of the property tax, but the primary determinant of City property tax receipts is the change in the City's assessed value, which is calculated by the County. The County Assessor's reported growth for the City's assessed value for receipts most applicable to the 2023-24 fiscal year was 5.9 percent, for which the current year estimate for base receipts have been increased accordingly. Total growth appears lower (2.9 percent), with secured receipts previously anticipated for the current year remitted before the close of 2022-23. Additionally, current year secured receipts that have missed forecasted growth may be attributed to increasing delinquencies reflecting weakness in the real estate market. This weakness can also be seen in lower supplemental assessment, higher redemptions and increase refunds.

The County does not provide an estimate for property tax growth applicable to 2024 receipts. Below-average growth of 4.6 percent is assumed, consistent with the current trend in receipts. Total property tax growth appears higher (4.9 percent) with the assumption that secured receipts for the current property tax year will mirror historical remittances for receipts through August 2024.

## Property Tax

### Change in Assessed Value - City of Los Angeles

Assessed value (AV) includes net revenue producing valuations for secured and unsecured property. The property tax estimate for fiscal year 2023-24 for the City of Los Angeles assumed growth of 5.0 percent. The County Assessor subsequently reported 5.9 percent growth for the City. Growth of 4.6 percent in assessed value for the 2024 property tax year, which closely corresponds to growth in property tax receipts for fiscal year 2024-25 for the City, assumes the full CPI adjustment on secured property, declining supplemental receipts, slowing growth in unsecured receipts, and increased, but stable, refund and redemption activity.

## Property Tax

### Percent of City Assessed Valuations to County Assessed Valuations

No preliminary estimate for Countywide growth in 2024 assessed valuations is available from the County Assessor, which would otherwise serve as the basis for City 2024-25 estimated property tax growth. The Assessor will release its assessment roll forecast in May.

City assessed valuations have been a stable component of Countywide valuations, and its share has increased in recent years as City growth has outpaced that of the County. However, growth has been slowing and the most recent tax year has revealed that County assessed value growth has outpaced the City's. City growth is again assumed to be lower, with the mix of properties in the local market experiencing greater strain from higher interest rates.

Change in the City roll typically parallels change in the County roll. Prior to the Great Recession, the County Assessor provided a preliminary forecast concerning growth assumptions for Countywide assessed value, which would serve as the basis for the City's growth estimate for property tax revenue. As this information is no longer provided, 2024-25 assumes 4.8 percent growth in Countywide assessed valuations as derived from assumptions for the different factors driving trends after the pandemic. City growth is assumed to be slightly lower.

## Property Tax

### Change in Countywide Roll Due to Proposition 8 Adjustments (Billion Dollars)

Proposition 8 changes include temporary decline-in-value adjustments made for current market value conditions or Assessment Appeals Board findings for prior tax year valuations, as well as restoration-in-value adjustments made after market conditions recover. Between 2004 and 2007, restorations and declines in value nearly offset each other. The Assessor has not provided a preliminary estimate for Proposition 8 related changes to property tax for the 2024 tax roll. With property market valuations experiencing downward pressure with the high interest rate environment, negative net adjustments are assumed to remain steady. There may be downside risk to this component if high interest rates persist and place further downward pressure on market prices.

## Property Tax

### Change in Countywide Roll Due to Sale of Property

(Billion Dollars)

The Assessor has not provided a preliminary estimate for sales-related changes to property tax for the County for 2024. Projected receipts for the 2024 tax year from real estate sales and property transfers are based on the current year decline in the City's supplemental receipts and the larger decline seen in documentary transfer tax receipts which precedes the collection of the supplemental assessment. There may be downside risk to this component if high interest rates persist and place further downward pressure on market prices.

## Property Tax

### Change in Countywide Roll Due to Inflation Adjustments (Billion Dollars)

The Assessor has not provided a preliminary estimate for inflation-related changes to property tax for the 2024 tax roll. Growth in this category is capped at two percent by Proposition 13, and the full two-percent adjustment will not be made when inflation is low. The partial adjustment made for 2021 tax assessments followed an increase of only 1.5 percent in the western region consumer price index (CPI) in 2020. With 3.5 percent CPI growth seen in 2023, the full adjustment is assumed in 2024 tax period growth.

## Property Tax

### Change in Countywide Roll Due to New Construction (Billion Dollars)

The Assessor has not provided a preliminary estimate for construction related changes to property tax for 2024. Growth from this component is projected to decline with the prior year trend, partially driven by the impact of higher interest rates on construction financing.

Fiscal year 2023-24 assessed values (AV) were assumed to grow by 5.0 percent; however the County Assessor reported 5.9 percent AV growth for the City corresponding to the 2023 property tax year. Annual growth in property tax receipts appears lower due to the allocation of property tax year receipts between 2022-23 and 2023-24, as well as lower supplemental receipts and higher refunds and delinquencies attributed to the struggling real estate market.

The County Assessor no longer provides a preliminary estimate for property tax growth for the upcoming tax year. Net 2024-25 receipts assume growth of 4.9 percent based upon estimated AV growth of 4.6 percent.

Above are monthly secured receipts by County tax year. Remittances begins in December and therefore do not align with the City fiscal year. The budget estimate for 2023-24 used 5.0 percent countywide growth in assessed value (AV), which roughly corresponds with City AV growth for the 2023 tax year. The County Assessor subsequently reported 5.9 percent growth for the City. However, actual remittances have been lower than the lower estimated growth. This variability is attributed to the collection rate, which may indicate increasing delinquencies. The Assessor has not provided a preliminary forecast for 2024 assessment year. Secured remittances for the 2024 tax period are assumed to be 4.6 percent higher than current year remittances, based on trends in 2023-24 receipts across the various property tax categories, assumptions for the full inflation adjustment as based on the CPI and a similar collection rate.

The property tax remittance period runs from December to August, overlapping two City fiscal years. Receipts in July and August belong to the prior property tax period. A dip or peak at the end of a fiscal year represents the shifting allocation of property tax period receipts between fiscal years.

The February spike in 2017-18 revenue (and its echoing drop in 2018-19) in the chart below can be attributed to early tax payments made by property owners in response to federal income tax deduction changes. The pandemic's impact to remittances (vs property values) is reflected in the partially delayed May remittance from the County, received in June in 2019-20. Please refer to the previous page for assumed AV growth corresponding to the property tax year.

Unsecured property tax is levied on property of common business usage that are not secured as liens for payment of taxes and is typically business equipment and machinery not attached to a building. Aircraft and watercraft are also considered unsecured property and are subject to taxation. The estimate for 2023-24 has been revised upward to reflect actual receipts. The estimate for 2024-25 assumes below average growth reflective of the slowing economy.

The levy of property taxes is based on the lien date of January 1. Properties assessed after the lien date due to real estate sales or improvements are supplemental taxes which are distributed to taxing jurisdictions about six months following receipt by the County. The real estate boom created an environment for a high level of supplemental adjustments. Receipts bottomed out in 2009-10. Receipts from 2014-15 up to the pandemic had been steadily increasing with modest price appreciation and low sales volume. The drop in 2020 coinciding with the pandemic's first shut down, was followed by gains from pandemic-driven sales. The second drop in 2023 reflects the impact of increasing mortgage rates.

The 2023-24 estimate has been reduced to reflect the current trend in receipts. The estimate for 2024-25 assumes a shallower decline as the real estate market stabilizes under the higher interest rate norm.

A property's assessed valuation (AV) is revised downwards when an appeal of the valuation is successful. A base year appeal revises the AV downwards until the property changes hands. A Proposition 8 appeal is a temporary reduction to AV when the current market value is lower. A successful appeal requires a refund of the prior year taxes previously distributed to the City. This deduction is volatile, depending on the number of appeals, processing time and the amounts being appealed. Refund activity has been high since 2016-17, exceeding amounts seen during the real estate decline. The 2023-24 revised estimate reflects increase in actual refunds, and the 2024-25 proposed assumes the same level of refund activity. There is downside risk to this estimate given the current real estate market conditions and weakness in demand for commercial office space.

Unpaid property taxes, both secured and unsecured, are known as delinquencies. Delinquent taxes accumulate interest and penalties. Properties with taxes unpaid for five years are sold through auction by the State to recover unpaid taxes. The taxpayer may settle the delinquency by redemption. The City's share of principal, penalties and interest is distributed by the County. Prior to the pandemic, redemptions had been decreasing with improving collections. This trend has reversed with increasing delinquencies. The estimate for 2023-24 has been increased based on current year receipts. The estimate for 2024-25 assumes similar redemption activity.

In 2019-20, the recording of receipts from miscellaneous property taxes were moved out of the departmental revenue source category (which is used to report reimbursements from special funds, proprietary departments and outside agencies and receipts from licenses, permits, fees and fines) to the property tax revenue source category. Given four years of double-digit declines in this category during the real estate market crash, a nominal decline is assumed for the current real estate market downturn.

The first \$7,000 of assessed value of a property owner's primary residence is exempt from local property tax. The State reimburses local governments for the lost tax revenue from this exemption. This reimbursement has been stable, but declining. This page tracks the State reimbursement made by the County.

The property tax administrative cost is recovered from each jurisdiction that receives property tax revenue. The County Auditor-Controller determines each local jurisdiction's proportionate share of the administrative costs by multiplying the total costs by the ratio of property tax revenue received by each jurisdiction. Though growth in this fee has increased in 2023-24, the estimate for 2024-25 uses average growth for this charge.

This category captures what is usually a relatively small amount of property tax adjustment activity due to assessment appeal reductions; mistakes; incorrect assessments; monies previously directed to Central Business Districts (CBD) Community Redevelopment Agency; or corrections to assessment payments collected by the Treasurer/Tax Collector. Adjustments can be either positive or negative. Since these adjustments are usually under \$1 million annually and could be either positive or negative, budget estimates typically include all entries to date for the current fiscal year. 2024-25 makes no assumptions for adjustments.

The estimates on this page represent the "base" total for the property tax revenue. For secured receipts this is roughly equivalent to one percent of the home value at the time of sale. The primary determinant of City property tax growth is the change in City assessed value calculated by the County Assessor. However, delinquencies, property sales, new construction, refund activity and other factors impact this growth. Moreover, as property tax period remittances straddle two City fiscal years, growth is shifted with receipts. Revised 2023-24 growth of 2.0 percent reflects the County's 5.9 percent estimate for 2023 tax period AV growth. Net growth is lower due to a lower remittance of prior tax year secured receipts, low supplemental receipts, and increased delinquencies and refunds. The estimate for 2024-25 reflects net 5.0 percent growth based on 4.6 percent AV growth, the reallocation of prior-year secured receipts, and lower/declining growth assumptions based on the real estate market.

Vehicle license fees (VLF) are in-lieu of an "ad valorem" tax on the value of non-exempt registered vehicles in the State. The State collects this revenue and distributes receipts to local governments. Beginning in 2004-05, the State redirected most local VLF monies to its budget and shifted property taxes to California cities to offset the loss of VLF monies. This account receives the property taxes in-lieu of all but a small portion of VLF receipts. Of all property tax components, VLF growth tracks most closely with the growth in assessed valuation projected by the County Assessor. The County's estimate for percent growth for the City's 2023 annual tax roll was 5.9 percent. The proposed 2024-25 budget assumes growth of 4.6 percent based on assumed real estate market conditions.

The dissolution of the former Community Redevelopment Agency under AB1x26 resulted in the redistribution of net Tax Increment (TI) resources to the various taxing entities, including the county, schools and the City. The City began receiving additional property tax payments (former TI funds) beginning in June 2012. A second component of miscellaneous revenue consists of one-time monies from the due diligence review and subsequent distribution of former CRA funds, for which the City received its last distribution in 2013-14, as well as the proceeds from the sale of surplus properties. This page represents the sum of both the tax increment and miscellaneous components.

Tax increment estimates are preliminary and subject to change based on many factors such as interpretation of legislation relative to enforceable obligations and the recommendations and decisions made by the Governing Board, Oversight Board and the State Department of Finance (DOF). Distributions occur only after accounting for certain fees, pass-throughs and enforceable obligations. Revenues are received in advance of the allocation period. Revised 2023-24 revenue is based on the County Auditor-Controller's estimate for the June 2024 remittance. Estimated 2024-25 revenue assumes lower-than-average tax increment growth, based on recent trends in receipts and uses the approved CRA/LA enforceable obligations amount to be applied against the January 2024 distribution.

Miscellaneous revenue includes the distribution of excess funds and proceeds from surplus property sales. 2023-24 estimated revenue has been updated to reflect the delay in receipts from surplus property sales. These receipts are now projected to be received in 2025-26 with the extension of anticipated sale dates for City-optioned properties.

The City imposes a tax upon businesses located in or doing business within the City. The business tax is typically based on gross receipts and is not an income tax. Taxpayers apportion gross receipts in cases where business activity occurs both within and outside the City. The chart below reflects growth and decline attributed to the housing boom and the Great Recession. Annual growth in total receipts accelerated with the legalization of recreational cannabis. Lower growth is seen in the revised and proposed year estimates in both categories.

This tax category represents tax receipts from all business tax categories with the exception of cannabis-related business activity. Most taxpayers remit on an annual basis and are assessed at rates between \$1.01/\$1,000 and \$4.25/\$1,000 of gross receipts. The chart below reflects declines due to the Great Recession and COVID-19 business closures. Lower growth in 2023-24 and 2024-25 is attributed to inflation and higher interest rates. Estimates are provided by the Office of Finance.

This tax category represents tax receipts from cannabis-related business activity as reported in the LATax system. Cannabis businesses remit at rates between \$10/\$1,000 and \$100/\$1,000 of gross receipts based on activity, with recreational cannabis sales having the highest rate. Receipts from legalized medical marijuana were first recorded in 2011-12. The increase in 2018-19 corresponds to additional receipts from legalized recreational cannabis activity. Receipts peaked in 2020-21, the first full fiscal year of the pandemic. Receipts have declined between 2021-22 and 2023-24 with a drop in demand, the change in the state's taxation methodology, and losses to the illegal market, and is consistent with statewide trends. The 2024-25 estimate assumes receipts decline at a slower rate.

The total sales tax rate of 9.5 percent in the City is imposed upon the sale of tangible goods, with exemptions for certain essentials like groceries and prescription drugs. 2020-21 actual revenue reflects the impact of pandemic-related business closures, the resulting recession, and the State's tax relief measures. 2021-22 actuals reflects the rapid recovery from the pandemic-driven recession, in contrast with those from the contraction of the defense industry or the collapse of the housing market. On the chart below, the impact of persistent inflation and higher interest rates can be seen in the downward turn in final 2022-23 revenue. The revised 2023-24 estimate reflects continuing decline in receipts. The 2024-25 estimate reflects assumptions for a modest growth which assumes the gradual reduction in interest rates.

**Adjusted Sales Tax Revenue - 12 Month Moving Sum**  
(Million Dollars)

The City's fiscal year sales tax revenue (July-June) is derived from taxable sales between April of the previous fiscal year and March. The quarterly variations from trends can be attributed to delayed remittances and the changes to the tax allocation schedule that began with the State's implementation of a new sales tax automation system in the quarter ending in June 2018, the State's first extension for sales tax filings in the quarter ending in June 2020, and subsequent recovery of these receipts in the quarter ending in September 2020. High quarterly (and annual growth in 2021-22 corresponds with the post-pandemic recovery. Actual and forecasted quarterly and annual growth reflects the economic strains of strikes and inflation through calendar year 2024, coupled with slowing growth from the shift of local sales tax to neighboring jurisdictions with online sales and third-party sales processing.

## Sales Tax

### City 1-Percent Sales Tax and Local Unemployment Rate

Sales tax revenue is an economically sensitive revenue that is inversely correlated with changes in employment. In the chart above, as the unemployment rate increases during economic downturns, growth in City sales tax revenue slows or declines as demonstrated by the shaded regions on the chart. Prior to the pandemic, the unemployment rate was at its highest level (12.6 percent) during the Great Recession in this 40-year time series, which coincided with a significant drop in sales tax revenue. As the local unemployment rate dropped to its historically low rate of 4.5 percent, sales tax revenue experienced steady growth. With the onset of the COVID-19 pandemic, the local area witnessed an unprecedented jump in unemployment, with the five months between April and September at rates that exceeded the worst of the Great Recession, with sales tax receipts dropping as well. Since the end of the pandemic, local unemployment dropped to a new low of 4.2 percent. In recent months the rate has increased, indicating downside risk to the revised and proposed sales tax estimates. The March 2024 UCLA Anderson Forecast predicts California unemployment rates of 4.6 percent and 3.8 percent for calendar years 2024 and 2025, respectively.

Receipts after September 2004 are adjusted to reflect 1 percent sales tax rate prior to the start of the triple-flip which reduced City tax receipts by 25 percent. Receipts for April 2016 onward are no longer adjusted with the restoration of the 1 percent rate with the end of the triple-flip.

## **Sales Tax**

### **Notes for the Long-Term Sales Tax Table**

The table on the preceding page presents City sales tax receipts from 1956-57 through 2022-23 and estimates for 2023-24 and 2024-25. Beginning in 2004-05, the local sales tax was temporarily reduced from 1 percent to 0.75 percent. To facilitate comparison, this table shows City sales tax receipts from 2004-05 through 2015-16 adjusted to reflect the 1 percent rate.

Each year is affected to some extent by such events as audits, tax increases known as "base broadeners," new tax exemptions, law changes, major refunds, allocation calculation changes, and other adjustments. Many factors besides the economy influence City sales tax receipts. For most years, the effects of these adjustments, some positive and some negative, offset one another. Thus, the percent change in sales tax receipts from year to year is a good indication of the local economy. Highlighted are periods of revenue decline, which are generally coincident with national recessions.

Compared to the Great Recession, the duration and depth of the 1990s Southern California recession was unprecedented. While the U.S. experienced a moderate recession, the Southern California economy more closely resembled a depression. In typical recessions, periods of declining receipts did not exceed one year, and the first year of recovery exceeded the revenue level prior to the recession. In the early 1990s, however, sales tax revenue declined four years in a row and did not exceed the previous peak until nine years after the downturn began. During the seven year-expansion beginning in 1994-95, the rate of growth averaged 4.8 percent. During the recovery of prior downturns, the rate of growth was much higher, averaging 10.4 percent and 6.6 percent for the 1970-71 and 1982-83 downturns, respectively.

The 2001-02 recession resembled that of prior years. The duration did not extend beyond one year and sales tax revenue returned to the prior level in the following year. Revenue growth averaged 4.9 percent until 2007-08 when sales tax growth declined significantly. During the subsequent Great Recession from 2008-09 and 2009-10, tax revenues declined by a cumulative 17 percent, losing a greater portion of the tax base in two years than was lost in the four-year downturn of the early 1990s.

The return to positive growth in 2010-11 coincided with increased online-spending that redirected taxable sales and tax revenue to other jurisdictions. Low growth in 2017-18 receipts and subsequent high growth in 2018-19 coincides with significant statewide changes to the tax collection and allocation system, new receipts from legalized recreational cannabis business activity and increased out-of-state remittances resulting from the Supreme Court's Wayfair decision.

Tax receipts for 2019-20 and 2020-21 reflect the impact of pandemic-driven business closures and restrictions, the consequential drop in employment and spending, and the State's efforts to provide tax relief through extended tax filing due dates. Actual 2021-22 and 2022-23 receipts reflect higher growth as receipts recovered from the pandemic and recession, as well as the nominal impact from increased inflation, which had the largest annual increase since 1981. The revised estimate for 2023-24 primarily reflects the impact of local strikes and a slowing economy under continuing inflation and higher interest rates. Additionally, more of the City's local sales tax revenue has shifted to the County pool and other jurisdictions with the State's action to allocate online purchases to distribution centers and third-party market facilitators. Higher interest rates, continuing inflation, and the continuing shift of local sales tax to other jurisdictions factor into the low growth forecast for 2024-25.

<b>City as % of State</b>	6.8%	5.6%	5.9%	6.2%	5.4%

Since the recovery from the Great Recession, taxable sales growth in the City has lagged behind the County and the State. While this trend appeared to end in 2018, lower receipts in the subsequent year's taxable sales for 2019 likely indicate a change in record keeping rather than sales activity. The pandemic impacted City receipts to a greater extent than statewide receipts due to extended closures. Additionally, the shift to online purchasing through third-party platforms for local businesses reallocated City taxable sales to the countywide pool. Consequently, the City's share of taxable receipts declined during this period and remains below pre-pandemic levels, partly due to the continued reliance on on-line/third-party purchasing by local businesses as well as the reallocation of online sales transactions to neighboring warehouse cities. Higher growth in 2021 and 2022 represents recovery from pandemic-era losses. However, City taxable growth between 2019 (pre-pandemic) and 2022 is only 15.6 percent, compared to 23.5 percent for the County and 29.2 percent for the State. City and County declines in taxable growth in 2023 may be attributed to the impact of local strikes. Source: California Department of Tax and Fee Administration Annual Taxable Sales Data

## Sales Tax

### State, County and Local Sales Tax Components in effect for Los Angeles City

<u>State Rate</u>		
General Fund	3.6875%	State General Fund
General Fund	0.2500%	(Inoperative in 2001, but effective thereafter.)
		The Local Public Safety Fund was approved by the California electorate in 1993 to support local criminal justice activities. The City receives a small share of this -- about \$30 million annually.
Local Public Safety Fund	0.5000%	
		For local health and social service programs. This portion was established as part of 1991 realignment.
Local Revenue Fund	0.5000%	
Local Revenue Fund	1.0625%	This portion was established as part of 2011 realignment.
<b>Subtotal for State purposes</b>	<b>6.00%</b>	
<u>Uniform Local Tax Rate</u>		
County Transportation	0.25%	The county allocates a small portion of this to the City for transportation purposes.
		<i>This is the source of City sales tax revenue. The City's share was reduced from 1% of taxable sales within the City to 0.75% by the triple flip starting with City receipts in September 2004. Replacement property tax in lieu revenue was remitted to the City to make up the shortfall during this period. The City is now receiving the full 1 percent rate.</i>
<b>Local Point of Sale</b>	<b>1.00%</b>	
<b>Subtotal for Local Purposes</b>	<b>1.25%</b>	
<b>Total Statewide Rate</b>	<b>7.25%</b>	
<u>Voter Approved Local Rates</u>		
		State law permits voter approval of optional local tax rates. The following countywide voter-approved local rates are applicable in the City of Los Angeles.
Proposition A Los Angeles County Transportation Commission	0.50%	Voter Approved in 1980 for public transit
Proposition C Los Angeles County Transportation Commission	0.50%	Voter Approved in 1990 for public transit
Measure R Los Angeles MTA	0.50%	Voter Approved in 2008 for public transit
Measure M Los Angeles MTA	0.50%	Voter Approved in 2016 for public transit
Measure H Los Angeles County	0.25%	Voter Approved in 2017 for homeless services
<b>Total Optional Local Rate Applicable in City of Los Angeles</b>	<b>2.25%</b>	
<b>Total Sales Tax Rate in City of Los Angeles</b>	<b><u>9.50%</u></b>	<i>This rate dropped to 8.75% with the expiration of Proposition 30 in December 2016, and increased to 9.5% in July 2017 with the implementation of Measures M and H.</i>

## Utility Users Tax Components

(Million Dollars)

Change in electricity and gas users tax receipts is primarily caused by changes in consumption (often impacted by extreme weather), rate increases, and prices for energy sector commodities. The ongoing decline in communications users tax receipts is due to competitive cellular plan pricing and the decline in landline subscribers. 2022-23 revenue in the chart above reflects the impact of an atypical peak in natural gas pricing to total UUT receipts.

The utility users tax (UUT) is composed of the electricity (EUT), gas and communications users (CUT) taxes. Its components are affected by the price of fuel, weather and the changing telecommunications marketplace.

The increase in 2022-23 receipts can be attributed to an atypical peak in natural gas prices, coinciding with a colder winter. The 2023-24 estimate has been increased to reflect changes in all three components, with CUT near plan and EUT growth offsetting the gas users tax decline. 2024-25 estimates are discussed on the following pages.

MAY	393,605	403,468	418,651	414,000			442,971	446,460
JUNE	429,228	438,427	453,634	449,800			477,250	482,400

The EUT billing estimate was provided by the Department of Water and Power (DWP) and has been adjusted for actual receipts. Growth based on the August 2023 load forecast is lower than average as DWP anticipates lower retail sales, continuing improvements in energy efficiency, and increased adoption of solar.

Revenue from the gas users tax is a factor of price and consumption. Prices have been subject to increased volatility in recent years. City receipts, which have historically followed the natural gas prices, have diverged during peaks in supply and demand such as during the Aliso Canyon gas leak and the colder winters.

The 2023-24 estimate assumed receipts would decline from the previous year's peak based on Energy Information Administration's (EIA) forecast. Receipts have been revised downward to reflect a steeper decline. Payment of the second of two consecutive legal settlements that reduced the UUT tax rate should also conclude in 2023-24. Growth for 2024-25 is based on the Energy Information Administration's forecast for pricing and consumption.

Revenue from the Communications Users Tax (CUT) has been declining steadily since the beginning of 2009-10, and may be attributed to the declining use of landline service and less expensive voice and text cellular service options. The decline slowed in 2016-17 with the implementation of AB1717, which ensures the collection of CUT from the prepaid wireless market. Despite AB1717, the decline resumed in 2017-18 due to "sales leakage" (purchases outside the City) in the prepaid wireless market and aggressive plan pricing in the postpaid wireless market.

The 2023-24 estimate has been increased slightly to reflect actual receipts. 2024-25 assumes an average rate of decline, based on trends that the decline is slowing.

The transient occupancy tax (TOT) is levied on the rate of hotel and motel rooms as well as privately owned rooms or properties rented for 30 days or less. TOT is paid by the occupant and is collected and remitted to the City by the host (or agent on their behalf). The tax rate is 14 percent, of which 1 percent is remitted to the Los Angeles Convention and Visitors Bureau (LACVB) Trust Fund and 13 percent is remitted to the General Fund. From General Fund revenue, 1 percent is appropriated to the Arts and Cultural Facilities and Services (Arts) Trust Fund.

The table below provides the estimated revenue from hotel and short-term rental activity in the City and the 1 percent share based on TOT actual and estimated receipts. The 1 percent estimate informs the appropriation to the Arts Trust Fund (Schedule 24) and revenue assumptions for the LACVB Trust Fund (Schedule 1).

Revised 2023-24 revenue reflects the trend in current receipts which has been lower due to an unrealized increase in international tourism. The 2024-25 estimate is based on tourism industry forecasted growth in hotel rates and demand for the Los Angeles region, which is below average growth.

The chart below depicts actual and estimated TOT revenue from hotels and from all TOT activity and reflects the recovery of pre-pandemic receipts from hotel activity. The gap represents receipts from short-term rentals for which growth had been slower to increase since the pandemic and is limited by the home-sharing ordinance restrictions.

The transient occupancy tax is levied on lodging rented for 30 days or less to be paid by the occupant (guest). The operator (host) is responsible for collecting and remitting the TOT to the City. Hosts renting out private rooms or residences are not exempted from collecting the TOT from their guests. The majority of this revenue is from collection agreements with online platforms such as Airbnb and VRBO. Since the implementation of the home-sharing ordinance, receipts in the category contribute approximately 12 percent to total TOT revenue, after averaging 19 percent prior to its implementation.

Revised 2023-24 revenue reflects the trend in current receipts. The 2024-25 estimate is based on tourism industry forecasted growth for short-term rental revenue.

The transfer from the Power Revenue Fund has historically been set as a percentage of prior-year gross operating power revenue. The Charter provides that the transfer may not exceed power system net income. The 8.5 percent drop in revenue from 2016-17 and 2017-18 reflects first year impact of a settlement agreement limiting the amount of the transfer.

The 2023-24 transfer amount was increased to reflect adjustments made for actual 2022-23 power system revenue. The estimate provided by the Department of Water and Power for the 2024-25 transfer reflects assumptions for 2023-24 power system revenue, as assumed in DWP's proposed budget, which may be adjusted based on DWP's audited financial statements.

Estimates for General Fund revenue from grants are provided by departments receiving grant funds including the Community Investment for Families Department, Department of Transportation, Economic and Workforce Development Department, Emergency Management Department, Fire Department, Housing Department, Office of the City Attorney, Office of the Mayor, Police Department, Public Works Board, Public Works Bureau of Street Services, and the Youth Development Department. The 2023-24 revised estimate is below the adopted budget by \$52.8 million, primarily due to a delay in anticipated COVID-19 reimbursements from the Federal Management Agency (FEMA). The 2024-25 estimate includes \$208.2 million in FEMA reimbursements for COVID-19 response efforts.

The documentary transfer tax is assessed at the time of a property's sale. Additional revenue is generated when controlling interest in a legal entity holding real property is transferred. This tax is the most volatile General Fund revenue source as revenue growth (or decline) is magnified when home prices and sales volume move together. This account quickly climbed to \$217 million in 2005-06 and fell to \$84 million in 2008-09, with the real estate boom and Great Recession. A similar climb to \$303 million and projected drop to \$158 million in 2023-24 coincides with the pandemic shutdown and the return to norm and changing mortgage interest rates. The 2023-24 estimate for the final quarter reflects increasing sales and a slowing price decline based on the trend in receipts. Growth in 2024-25 is based on industry forecasts which include assumptions for reduced interest rates.

This table breaks down monthly revenue into components of number of deeds and average revenue per deed to serve as proxy data for sales volume and price for the housing market. As seen in the monthly column, sales began to decline at the end of 2021-22 with increasing mortgage rates. 2022-23 monthly revenue per deed began to decline with the January 2023 remittance.

The documentary transfer tax rate is \$2.25 per each \$500 of sales price. This tax is the most volatile General Fund revenue source as revenue growth (or decline) is magnified when home prices and sales volume move together. Since the Great Recession, price appreciation has been largely a factor of low sales inventory. This trend was amplified during the pandemic with both a drop in inventory and in interest rates boosting growth in 2021-22. Actual receipts in 2022-23 and revised 2023-24 revenue reflects the dramatic impact of higher mortgage rates to sales volume and price. The 2024-25 estimate assumes a slight recovery in sales and prices as the Federal Reserve begins reducing rates and home buyers and sellers grow accustomed to the relatively higher mortgage rate environment. Extended delays in Federal Reserve rate reductions pose downside risk to this estimate.

This revenue is received when the controlling interest of a legal entity holding real property is transferred. Fiscal year 2010-11 marks the first year of its collection. This revenue can be erratic, exhibiting significant fluctuations from month to month, which is best exemplified by a \$12.4 million transfer received in August 2015 (not shown). The variability of receipts makes this revenue difficult to project. The revised 2023-24 estimate is based on actual receipts, and its reduction is attributed to the slowing economy and higher financing rates. The 2024-25 estimate assumes receipts based on ten-year average revenue (excluding outliers).

Franchise income records fees collected from City franchisees. This includes natural gas distributors, cable TV operators, solid waste collection companies, official police garages and taxicabs, as well as other businesses that operate as a result of obtaining a City franchise.

Revised franchise revenue in 2023-24 has been increased to reflect higher growth in receipts in gas, solid waste, and pipeline franchises. 2024-25 revenue reflects a net increase based on the trends of individual components, among other factors.

This revenue results from the adoption of an exclusive franchise system for solid waste collection from commercial and multi-family properties, with receipts first recorded in 2017-18.

The estimate for 2023-24 receipts has increased to reflect growth in solid waste franchises. The estimate for 2024-25 assumes revenue growth based on prior year receipts.

A six percent fee imposed on gross cable TV revenue, of which five percent is received as general fund revenue as of 2021-22, with the other one percent deposited in the Telecommunications Development Account (TDA). Prior to 2021-22, the six percent was divided equally between the General Fund and the TDA.

Current year estimate has been reduced to reflect a declining trend in these receipts, and the 2024-25 estimate assumes a shallower decline based on prior receipts.

Previous to 2022-23, the franchise payment received from natural gas suppliers was two percent of the gross sales of gas plus the value of gas not sold, but rather transported within the City. 2022-23 receipts reflect increased revenue from the new natural gas franchise agreement, with full-year receipts anticipated in 2023-24. Both fiscal years reflects additional growth from peak pricing of natural gas and increased consumer demand during the cooler winter; although current year receipts are lower as informed by monthly receipts for the gas utility users tax that precede the quarterly franchise payments. Growth is based upon EIA forecasts for natural gas prices and consumption.

Franchise income is a fee of seven percent of an Official Police Garage operators revenue from towing fees, storage fees and vehicle lien processing fees from impound requests from the Police and Transportation departments. As the number of impounds declines, operator revenue and franchise fee revenue declines accordingly. Changes in the Police Department's impound policy for unlicensed drivers significantly reduced the number of impounds, attendant fees and franchise revenue in 2012-13. Since then, receipts have remained stable until the pandemic.

2021-22 actual receipts reflects recovery in these receipts. The 2023-24 estimate has been reduced to reflect the trend in current receipts. 2024-25 revenue assumes a return to baseline revenue.

The pipeline franchise payment is based on the size and length of pipe and an established fee which is adjusted for the change in the producer price index. It is also affected by the number of franchisees. Fifty percent of the proceeds from this fee are deposited into special accounts for neighborhood improvements in areas impacted by petroleum gas pipelines. This account records the balance of gas franchise fees which are deposited into the General Fund.

The 2023-24 and 2024-25 estimates were provided by the Board of Public Works and are within average of recent receipts.

Franchise income included a fixed franchise fee per taxi cab; a fee charged each time a cab franchise changes hands; and miscellaneous charges and penalties.

The drop beginning in 2019-20 reflect the Taxi Commission's action to eliminate franchise fees in March in advance of the taxicab franchise ordinance's expiration in June 2020. As the permitting system was not fully implemented until 2022-23 franchise fee collections resumed with residual receipts collected through 2022-23. No additional franchise revenue will be received in this category.

The parking occupancy tax is levied on the rent of parking spaces, equal to 10 percent of the parking fee. Monthly receipts fluctuate significantly, but generally grow over time.

The 2023-24 estimate reflects a small increase in actual receipts, as the only core tax revenue not to be reduced by the current economic conditions. The 2024-25 estimate assumes the same growth rate.

The parking fine estimates for 2023-24 and 2024-25 are provided by the Department of Transportation and are based on recent issuance and collection activity. In contrast to the parking occupancy tax which has returned to pre-pandemic receipts after a 56 percent decline during closures, parking fine revenue remains below pre-pandemic levels. This divergence can be explained by lower issuance due to traffic officer vacancies and operational needs, as well as declining collections as seen on the chart below.

The adopted and revised estimates are provided by the Office of Finance. Interest income credited to the General Fund through March is not a predictor of current year receipts since the amounts shown include interest earnings that must be credited to proprietary departments and special funds before the end of the fiscal year. These transfers are reflected as negative receipts in the actual column in the table above. Estimates were provided by the Office of Finance and reflect its current assumptions for interest earnings with anticipated rate hikes. Due to the timing of monthly cash receipts and the strictly cash basis of the City budget, earnings attributable to one year may be received in a different fiscal year. Assumptions below are provided for informational purposes only.

### Interest Income Rate Assumptions

(Million Dollars)

	2022-23	2023-24		2024-25
	ACTUAL	BUDGET	REVISED	PROPOSED

An ordinance to amend the Administrative Code in 2008-09 allowed the Council to determine a surplus amount of Special Parking Revenue Funds (SPRF) to be transferred to the Reserve Fund for unrestricted use. The code was subsequently amended in 2011-12 to require that prior to declaring a surplus, funding would be set aside for a 5-year maintenance and operations plan for SPRF-funded programs.

The 2023-24 transfer reflects additional one-time receipts of \$8.8 million above the base transfer amount of \$23.5 million. The 2024-25 transfer is slightly below the base transfer amount.

This revenue is part of a settlement in which seven tobacco companies agreed to restrictions on marketing practices and to pay \$206 billion during a 25-year period through 2025 to California, 45 other states, the District of Columbia and five U.S. territories. This agreement has since been extended indefinitely. In 2000, the State first received California's share of the settlement, estimated to be more than \$0.9 billion annually. Half of the payment goes to California's General Fund. The remainder is divided based on population, among California's 58 counties and four largest cities for use as decided by each local government. Major factors for change include the volume of cigarettes shipped, prices, and the relative population of California counties. Estimates for 2023-24 and 2024-25 are based on 2022-23 receipts.

Motor Vehicle License Fee (MVLFF) revenues are collected by the Department of Motor Vehicles. In 2011-12, the State eliminated the distribution to municipalities made under California Revenue and Taxation Code Section 11005 in order to fund community law enforcement programs that were realigned from the State to the county.

Municipalities continue to receive "excess" revenue under Section 11001.5(b), estimated to range between \$17 million and \$20 million annually. A municipality's share of excess revenue is allocated according to its population size, for which the City receives approximately 12.6 percent. Typical receipts ranged from \$1.5 million to \$3.2 million annually. The 2023-24 remittance was \$4.8 million. The 2024-25 estimate is based on the 2023-24 remittance.

The General Fund residential development tax is a \$300 tax imposed on each new dwelling unit constructed in the City. An additional \$200 tax is called the dwelling unit construction tax and is deposited into the Parks and Recreation Sites and Facilities Fund. This tax revenue can be very volatile since its range of activity, 3,000 to 19,000 units annually, is determined by economic conditions and the availability of building sites in the City. As the City is relatively "built up," housing construction activity is not directly comparable to that of the State and County. The estimate for 2023-24 reflects receipts-to-date and the decrease is likely attributed to higher construction financing costs. The 2024-25 estimate assumes modest improvement in receipts.

The American Rescue Plan Act of 2021 is a \$1.9 trillion economic stimulus package that includes \$350 billion in one-time funding to state and local governments to address budget shortfalls and mitigate the fiscal shock of the pandemic.

The federal relief funds were provided to the City in two installments in 2020-21 and 2021-22.

The sources that contribute to this revenue include fees collected by various departments for services such as permits, fees, and ambulance services. Additionally, more than one-half of this revenue comes from reimbursements from special funds and proprietary departments for services paid for by the General Fund, such as health insurance. The revised 2023-24 budget anticipates 43 percent of total department revenue to be received in the last quarter of the fiscal year.

Details of this revenue category can be seen on the following pages.

## DEPARTMENTAL RECEIPTS

### SIGNIFICANT CHANGES

	Millions
<b>FY2022-23 Actuals</b>	<b>\$ 1,232.1</b>
♦ Special Funded Reimbursements - The estimate includes the impact of changes in CAP rates primarily for Building and Safety Enterprise Fund for Building and Safety, Citywide Recycling for Bureau of Sanitation, Proposition C for Transportation, Arts and Cultural Facilities for Cultural Affairs, Measure R and Measure M for PW Street Services and Transportation, and others.	69.7
♦ MTA Reimbursement - Prior year billings are anticipated to be collected in 2023-24 pursuant to contract extension.	33.1
♦ State Mandated - The estimates include payments for various prior year police related state mandated claims.	29.2
♦ Ambulance - Increase is mainly due to the CA Dept. of Health Care Services reimbursements for the Public Provider Ground Emergency Medical Transport Intergovernmental Transfer (PP-GEMT-IGT) program.	15.5
♦ Gas Tax Projects - Related cost reimbursements are based on funding availability and CAP rates. The increase is mainly for PW Engineering and PW Street Services.	5.0
♦ One Time Reimbursement -The 2023-24 estimates mainly include increased CTIEP funding from LA Metro for the Destination Crenshaw project (\$6 million); refund due to insurance reimbursement for COVID expenditures (\$5M); salvage property receipts (\$0.5M); offset by reductions in reimbursements from other agencies for various City agreements deposited in the CAO (\$3M); GCP Project Roomkey (\$5M); and lower sale of surplus properties (\$1M).	3.1
♦ Transit Shelter Income - Increase is mainly due to Sidewalk and Transit Amenities Program (STAP) revenues from Tranzito-Vector pursuant to Ordinance No. 188009.	3.0
♦ PW Contract Administration - Special excavation inspection and forfeitures and penalties estimates are higher.	2.4
♦ Services to Stormwater Fund - Reimbursements to PW Sanitation increased in 2023-24 primarily due to higher estimated beginning cash balance in the special fund.	2.2
♦ City Attorney - Forfeitures and penalties and damage claims and settlement revenues are anticipated to increase this fiscal year.	2.2
♦ Transportation - Most of this increase is from state maintenance agreement, preferential parking, and Special Parking Revenue Fund reimbursements.	2.1
♦ Services to Airports - Increased reimbursements to Fire is offset by decrease in GSD and Police services.	1.2
♦ PW Engineering - The increase is mainly attributed to B Permit revenues.	1.0
♦ Solid Waste fee - The special fund is subsidized by the General Fund and could not fully reimburse related costs.	(17.5)
♦ Services to Sewer - Driven by CAP rates and salary assumptions, the decrease in reimbursements to PW Engineering, and PW Sanitation is offset by an increase in reimbursement to PW Contract Administration.	(7.3)
♦ Fire - Construction plan checking, filming and non-continuing permits are estimated to decrease, offset by higher brush clearance and unified program fee receipts.	(6.3)
♦ Services to DWP - PW Street Services, City Attorney, and central services billings decreased, offset by increased reimbursements to PW Contract Administration.	(6.0)
♦ Library Reimbursements - mainly attributed to lower reimbursements for Police and other central services.	(5.6)
♦ GSD - lower receipts in Miscellaneous Revenues mainly represent decreased billings for construction projects.	(3.4)
♦ C.T.I.E.P - reimbursements are related to capital projects.	(2.0)
♦ General Fund Miscellaneous - 2022-23 Opioids Settlement Agreement payment was subsequently transferred to the Opioids Settlement Fund.	(1.9)
♦ Services to Harbor - The decrease is primarily due to lower Fire costs reimbursements.	(1.3)
♦ All others	1.4
<b>FY2023-24 Revised Budget</b>	<b>\$ 1,351.9</b>
<b>Change from FY2022-23 Actuals</b>	<b>\$ 119.8</b>

## DEPARTMENTAL RECEIPTS

### SIGNIFICANT CHANGES

	Millions
<b>FY 2023-24 Adopted Budget</b>	<b>\$ 1,363.3</b>
♦ Ambulance - The increase is mainly attributed to the CA Dept. of Health Care Services' reimbursements for the PP-GEMT-IGT program, offset by lower than anticipated Ground Emergency Medical Transport (GEMT) program which discontinued in December, 2022 .	43.7
♦ State Mandated - Reimbursements increased from the State due to payment of prior-years police claims.	29.6
♦ One-time reimbursements - This category can fluctuate depending on what revenues become available. For 2023-24, the increase is mainly attributed to capital projects, Project Roomkey, refund of COVID expenditures reimbursed by insurance, U.S. Golf Association and other reimbursements pursuant to certain agreements.	21.4
♦ City Attorney - Forfeitures and penalties, damage claims and settlements and other miscellaneous revenues are projected to increase.	3.2
♦ Personnel - Workers' compensation reimbursements from proprietary departments were greater than expected.	2.3
♦ Human Resources Benefits - Workers' compensation refunds and supplemental dental & optical subsidy reimbursements from proprietary departments are greater than anticipated.	1.3
♦ Special Funded Reimbursements - Vacancies and CAP rates are the main drivers for lower than anticipated Special Funded reimbursements e.g. Proposition C, Measure R and Measure M, St. Lighting Maintenance Assessment, City Planning special funds, Metro Rail, etc.	(40.4)
♦ MTA Reimbursement - The estimate is based on service levels, actual billings to date, some of which are from prior-year due to the delay in contract execution, as well as the estimated payments through fiscal year-end.	(17.6)
♦ Fire - Filming permits were impacted by the actors and writers' strike; implementation of excessive false alarm fees was delayed; construction plan check fees, non-continuing permits, high-rise and other inspection fees are projected to be lower than budgeted, offset by higher than anticipated brush non-compliance fee and reimbursements from other agencies for mutual aid.	(12.2)
♦ Gas Tax Projects - Reimbursements for PW Street Lighting and PW Street Services related costs are below budget mainly due to vacancies.	(11.0)
♦ Police - Police permits, excessive false alarm, and impound fees, as well as union release time and other reimbursements of expenditures, are expected to be lower than budget.	(8.9)
♦ Services to Airports - Police and PW Contract Administration reimbursements are anticipated to be lower than budget.	(6.2)
♦ Transportation - Filming permits, parking meter & lot maintenance, and off street parking receipts are estimated to be below budget, offset by increased state maintenance agreement and transportation control services reimbursements.	(4.2)
♦ Services to Harbor - Reimbursements to City Attorney, Fire, PW Contract Administration and Transportation are expected to be below the budgeted amount.	(3.6)
♦ Library Reimbursements - The decrease is mainly attributed to lower Police and PW Engineering billings.	(3.4)
♦ Services to DWP - Lower reimbursements for Office of Public Accountability and PW Contract Administration are offset by higher Personnel and Finance costs.	(2.5)
♦ PW Engineering - The expected decrease is mainly due to lower B, U permit and other permit fee revenues.	(2.4)
♦ PW Bureau of Street Services - Building material permit receipts are estimated to be lower than budget.	(1.1)
♦ All others	0.6
<b>FY 2023-24 Revised Budget</b>	<b>\$1,351.9</b>
<b>Change from FY 2023-24 Adopted Budget</b>	<b>\$ (11.4)</b>

## DEPARTMENTAL RECEIPTS

### SIGNIFICANT CHANGES

	Millions
<b>FY 2023-24 Revised Budget</b>	<b>\$ 1,351.9</b>
♦ Special Funded Reimbursements - Based on CAP rates, salary assumptions and availability of funds, the increase is mainly attributed to Propositions A and C, Measures M, and R, Metro Rail projects; Building and Safety Enterprise Fund; Arts & Cultural Facilities; Code Enforcement; Citywide Recycling; offset by reduction in Street Lighting Maintenance Assessment, etc.	54.0
♦ Recreation and Parks Reimbursements - The 2023-24 related costs were based on certain fringe benefit costs while 2024-25 reimbursements are based on CAP 46.	27.2
♦ Library Reimbursements - Library reimbursements are based on CAP rates and salary assumptions, and services provided by other departments, such as Police.	16.1
♦ Gas Tax Projects - Based on salary assumptions and CAP rates, the increase is primarily attributed to PW Street Lighting and PW Street Services.	12.6
♦ Fire - Various Fire services such as filming permits, excessive false alarm fees, non-continuing fees, construction plan checking, high-rise inspection, other inspection services, and reimbursement from other agencies are projected to increase.	10.8
♦ Police - Police anticipates increased revenue for police permit, excessive false alarm fees, and miscellaneous police services, as well reimbursement of expenditures.	7.6
♦ Services to Airports - Fire, Police, and City Attorney expenditures are anticipated to increase, offset by lower estimates for ITA.	6.5
♦ Services to Harbor - The increase is mainly attributed to Fire and City Attorney services.	4.7
♦ Services to Stormwater Fund - The increase is mainly due to available funding to partially reimburse PW Sanitation costs.	3.7
♦ Transportation - Parking meter and lot maintenance and off street parking reimbursements, as well as filming permits receipts are expected to increase.	2.3
♦ PW Bureau of Contract Administration - A, B and special excavation permits receipts are anticipated to increase in 2024-25.	1.7
♦ State Mandated - State mandate reimbursements are hard to predict and reimbursements are expected to decrease.	(29.6)
♦ One-time reimbursements - This category can fluctuate depending on what revenues become available. Examples of revenues for this category are surplus property sales, salvage receipts, escheatments, unclaimed assets from the State and construction projects.	(20.6)
♦ MTA Reimbursement - The decrease is mainly due to prior year reimbursements received in 2023-24.	(15.7)
♦ Services to Sewer - The decrease is primarily due to lower CAP 46 rates for PW Sanitation and PW Contract Administration, offset by the increase to PW Engineering.	(13.5)
♦ Transit Shelter Income - In accordance with Ordinance No. 188009, street furniture revenue will be deposited in RAISELA Fund.	(5.8)
♦ Ambulance - Emergency ambulance services and GEMT revenue received in 2023-24 included reimbursements for prior year costs.	(5.7)
♦ Solid Waste Fee - The fee is not at full cost recovery and cannot fully reimburse overhead costs.	(5.1)
♦ City Attorney - Forfeitures and penalties, subrogation revenue, attorney fees, damage claims and settlements, and miscellaneous revenue are expected to decline.	(3.2)
♦ Services to DWP - Reimbursements are expected to be higher for City Attorney, Office of Public Accountability, Personnel, and central services, offset by declines in PW Street Services and Transportation services.	(1.1)
♦ All others	(2.8)
<b>FY 2024-25 Proposed Budget</b>	<b>\$ 1,396.1</b>

GCP revenue is mostly from reimbursement from other funds. In July 2020, the reimbursement from the COVID-19 Relief Fund was initially recorded in GCP Reimbursement from Other Funds account (C.F. 20-0600). These receipts were subsequently reclassified in order to record the one-time CARES Act revenue in the citywide GF Miscellaneous non-department.

Measure ULA, passed by voters in November 2023 and effective April 1, 2024, is a 4.0 percent tax on property sales that exceed \$5 million and a 5.5 percent tax on sales exceeding \$10 million. Receipts are allocated to a special fund to address housing availability and homelessness prevention. The tax is assessed in addition to the volatile Documentary Transfer tax which is subject to wide swings in revenue with the housing market's boom-and-bust cycle. The sale of high value properties experience greater variability in receipts as seen in the chart below.

An acceleration in sales occurred in March, prior to the tax's implementation, which explains initial receipts in 2022-23. Since then receipts have remained below initial projections due to the impact of higher financing costs after successive rate increases by the Federal Reserve.

In 1993, State legislation provided for the allocation of 1/2 cent sales tax to local government. Proposition 172 was approved by voters in November 1993 which extended the allocation exclusively for public safety purposes. Funds are allocated by the Board of Equalization to counties, which in turn, distribute a portion to cities. A city's share is determined by the amount of property taxes shifted to schools in the 1993-94 State budget and further adjusted by other State actions.

Since 1999-2000 growth in fund revenue has mirrored growth in the City's sales tax revenue. Growth has diverged in 2019-20 and 2021-22 due to the differing impact the pandemic has had on City and State taxable sales activity. The revised and proposed budget are in line with estimated growth for statewide sales tax revenue, which has fared better than the City.

The Traffic Safety Fund receives revenue from fines, bail and traffic school fees associated with citations for moving violations. Tickets are issued by LAPD, as well as the California Highway Patrol and other traffic enforcement agencies. The City's share of revenue varies by citation type, but averages 92 percent in collections. The ongoing decline in receipts accelerated with the expiration of speed limit zones, the discontinuance of license suspensions and the reduction of fines based on ability-to-pay. With the completion of traffic studies, ticket issuances increased slightly. 98 percent of the speed limit zones have been updated. However, revenue in 2021-22 declined significantly due to the coronavirus pandemic. Revised revenue is based on actual receipts and 2024-25 revenue is anticipated to return to 2021-22 levels
