Council File No: 24-0601

Comments for Public Posting: From the Motion: "The Athens Services Community Benefits Trust Fund provides funding for health care, environmental, and transportation projects, programs, and services in the Sun Valley, Shadow, Hills, Stonehurst, La Tuna Canyon, and nearby neighborhoods of Council Districts 2, 6, and 7. The Whitsett hillside slope area located on Whitsett Avenue between Sherman Way and Saticoy Avenue has become an attractive area for individuals who trespass and deface public and private property, which has resulted in damage to the habitat, defacement of the area and other related issues. In order to help beautify and restore the area, and eliminate the litter and graffiti problem, the City should invest in security lighting, fencing, irrigation repair and securing the water source." These are mitigation funds - to mitigate damages caused by environmental polluters, yet they are never used in Sun Valley and for Sun Valley. How do the expenses below qualify for this transfer? Hiring Hall, Construction - \$41,688 Benefits, Hiring Hall Construction - \$17,661 Construction Materials - \$26,825 Where is Athens operating from, North Hollywood or Sun Valley? SUN VALLEY. They why are the trust funds being used in other districts that are in no way impacted by pollution of Athens and the likes nearly as much as Sun Valley?
