Comments for Public Posting: As your constituent I demand that you put in a motion that halts all Military aid to Israel. Please Oppose funding to Israel Military due to humanitarian right violations and unchecked bombing on Palestinian peoples. . We are against this policy. The U.S. must break alliance with ISRAEL immediately. This is not how United States people function. We must protect our sovereignty from Israel overseeing our actions. When will the genocide in Palestine end, there is no humanitarian aid being allowed, Israel continues to expand its control over Palestinian territory, all while attacking refugee encampments with bombardments and shooting ammunitions into the area indiscriminately.

Comments for Public Posting: Los Angeles City Councilmembers: Please vote yes on this resolution. More than two years have passed since October 7, and it is evident now more than ever that Israel committed and continues to commit a genocide on the people of Palestine, and now the people of Lebanon. Eighty percent of Democrats view Israel unfavorably. The very loud minority who support the continued genocide of Palestinians must not be allowed to silence the vast majority of us who believe in human rights for all. The atrocities must end, and voting for this is a bare minimum.
