Comments for Public Posting: Dear LA City Council, My name is Raymond Fang and I am a resident of CD 10 and a constituent of Heather Hutt. I am writing in support of Council File 24-0656, in which the City would join the widespread international call for an immediate and permanent ceasefire in the ongoing genocide in Gaza. The City has a clear moral duty to speak out against this heinous genocide, especially when US tax dollars are funding Israel's mass destruction and colonization of Gaza. I hope Councilmember Hutt will have the moral clarity to act with the strength and purpose needed to vote in support of this important measure. Free Palestine!
