

## Communication from Public

**Name:** CRYSTAL PALINES

**Date Submitted:** 11/29/2025 12:20 AM

**Council File No:** 24-0711-S2

**Comments for Public Posting:** My name is Crystal Palines and I have lived in this neighborhood for all 46 years of my life. This community is in my blood — it's where I was born, it's where I grew up, where I've raised my family, and where I've poured my entire life. I work every day to protect my family and this country, and I take pride in standing up for what is right. That's why it breaks my heart, and honestly scares me, to see a project like this RV park being pushed into the very place I've always called home. I am strongly and emotionally opposed to this RV park. It feels like someone from the outside is trying to come in and use our neighborhood — my neighborhood — as a way to make money, without any real regard for the people who live here, who have roots here, who have built their lives here. We are not just a spot on a map. We are families. We are history. We are people who care about safety, about stability, about the future we leave to our children. The lack of oversight on this project is unacceptable. It feels like our voices are being pushed aside while someone else tries to profit at our expense. I'm asking you, sincerely and urgently, to stand with the people who actually live here. We need you to slow this down, to question it, to scrutinize it — because once a decision like this is made, we cannot undo it. And the damage to our community could be lasting. I have spent 46 years in this neighborhood, and I'm not willing to watch it be changed for the worse without a fight. Please, protect our homes, our families, and the community we've spent generations building. Thank you for hearing me.

## Communication from Public

**Name:** Cynthia Winter

**Date Submitted:** 11/29/2025 12:43 AM

**Council File No:** 24-0711-S2

**Comments for Public Posting:** My name is Cynthia Winter. I have lived in this neighborhood for over 50 years. This community is my home — it's where I've raised my family and where I've invested my entire life. I care deeply about the safety, character, and future of this neighborhood. I am strongly opposed to the proposed RV park. An RV park does not belong in our neighborhood. It is not safe, it is not appropriate, and it goes completely against the values and stability our community has built over generations. What concerns me even more is the behavior of the person trying to build this project. He did not engage with our community, did not communicate his intentions, and did not show any respect for the people who actually live here. He started building without meaningful outreach, without transparency, and, in many cases, without properly following the rules and regulations that every responsible developer is expected to honor. This is not someone acting in the best interest of our neighborhood — this is someone acting purely out of self-interest. And given the reputation of his previous RV businesses, we have every reason to demand oversight, scrutiny, and accountability before this goes any further. Our community deserves better than being blindsided by a project that puts our safety and our quality of life at risk. I am asking the Council to protect this neighborhood, listen to the longtime residents who truly understand this place, and stop this project from moving forward. Thank you.
