Comments for Public Posting: It is appalling how easily these fascists seek to restrict free speech and prioritize and uplift the speech of rich white people, while ignoring the real hate speech that people have experienced for decades in Los Angeles. It is disgusting how Katy continues to criminalize the lives of black and brown people while seeking to appease white folks in her district. Oppose this motion that uplifts and empowers far-right voices and MAGA fascists. Respect free speech!

Comments for Public Posting: I think this is really important that you pass this ordinance. To be blocked from being able to access to one's religious institutions by anyone for any reason is just plain wrong.

Comments for Public Posting: For individuals to block anyone from going into a church or temple or synagogue is not okay. It's protected under our constitution as freedom of religion. I believe that this would be a stellar thing to pass. It is important for our community and make a more peaceful environment.
