Comments for Public Posting: I am an American citizen of 69 years, I have heard about an initiative to free up the doors of the churches, to allow for a freer entry. I wanted you to know that I fully support this plan with much applause! Having easier access to simple solutions for life betterment that some of these churches offer will only do us all well! And some of these churches are as well active in the Los Angeles Areal in terms of help. Thank you

Comments for Public Posting: With all what is happening in the world or even in our city, it is time to allow the groups who devote themselves to the well being of others and contribute to make a better world (like places of worship, community centers, schools and others...) to be protected and safeguarded. I am glad that this motion is proposed in order to guarantee that for all. I am saying YES for this ordinance be passed and put in effect.

Comments for Public Posting: I arrived recently in LA and I have been more than surprised to see some violent incidents occurring in various places, including near religious places. This does not make sense in the country of Liberty and in a city world-known for its diversity of groups and people. This is also clearly an abuse of American tradition of freedom. This is a duty for the City Counsel to protect any sensitive place from uncivil groups, behavior or people, who clearly abuse their right of speech, and who mix freedom of expression and freedom to attack and harass!

Comments for Public Posting: I think that it is super important to be able to safely get help in life, so having this project of a buffer zone will enable more people to feel that they can go to any place for help and not be attacked or harassed. This is a freedom that all Americans should have. Having the City Council support this is very important,
Kennedy Repchek – from Hollywood

Council File No: 24-0910

Comments for Public Posting: I am voicing my support of initiating a “buffer zone” around schools, community centers, churches and other groups that are there to help the community and be free from harassment. These groups are owed our support and ability to help and not be hindered for the good of all. So this project is very good and important, and I fully support it. Alan Klebanov, musician from LA

Comments for Public Posting: While freedom of speech is an important right, when it results in blocking entrance to a religious organization, this oversteps the bounds of religious freedom. I have experienced this and it violates my religious rights. Passing this bill will help protect the rights of all- both religious rights and freedom of speech.

Comments for Public Posting: Buffering in front of a religious establishment should be enacted into law. I have seen religious activities disrupted by so-called protesters who are there simply to disrupt and prevent a person's constitutional right of Freedom of Religion. I implore you to enact and implement this as quickly as possible.
