Comments for Public Posting: I definitely support the proposal to limit the physical closeness of potential protestors in proximity of religious institutions, hospitals or educational facilities. I observed such activities last year and saw how adversely it affected some parishioners or people just passing by.

Comments for Public Posting: I support this idea, on the basis of community safety, as well as simple standards of propriety amongst those who congregate in churches or gather at community centers. While protestors have the right to protest, congregations have the right to assemble without menacing signs or comments at points of ingress & egress.

Comments for Public Posting: I am a citizen of Los Angeles and I am in full agreement and support the initiative to keep protestors who want to embarrass people away from entrance of institutions that help, like hospitals, schools or churches. I appreciate all that the City Council does to make Los Angeles a pleasant place in which to live.

Comments for Public Posting: I am highly in favor of this proposal to ban people who harass from access to places of healing or worship and/or schools and places of education in Los Angeles.
