Comments for Public Posting: Thanks so much for this. I think it is a great idea. I have to suggest a few alterations to the text, since I think "lawful entry" should be specified about the person entering the sensitive facility. I can see a case where an agitator may be trying to unlawfully enter and need to be stopped. This wording might potentially hinder staff members or do-gooders from helping such a situation. Also, the second item's usage of distances is a bit confusing. Who is at 8 feet, and who is at 100 feet? Thank you.
