Comments for Public Posting: I heard there is a proposal to ban harassers from entrances of places of worship or healing and/or schools and places of education in Los Angeles. As a Jewish woman and granddaughter of Holocaust Survivors I am in high favor of this potential law. I worry for the safety of synagogues, Yeshiva schools, but also other places of worship at that time.

Comments for Public Posting: I know that there is an initiative for kind of protected area around entrances of places like community centers, schools, churches, currently with the Safety Committee. We definitely need such a bill to pass and become permanent.

Comments for Public Posting: This measure would greatly help me as a citizen of Los Angeles. I see and personally experience kecking by some of the people that get near some helpful community services buildings and I find it upsetting when it happens personally and when I see this occur to others. Therefore I am 100% supporting this project so that it can help the people.
