Comments for Public Posting: I am totally in favor of an ordinance creating buffer zones as I can feel completely safe going to areas that I need to go to when I need help (hospitals, church, community center.... This avoids hecklers that hang around at times at the entrance yelling comments at me and filming me with their devices. This is why I am asking support for this motion of the City Council for this project.

Comments for Public Posting: I heard about this motion which will protect the hospitals, churches, schools, communities centers from attacks of people creating noise around this places. I remember having been in a hospital, and very worried to listen this people outside doing a lot noise. Also I saw people outside a Church degrading the people working there and the job what they were doing. This derogatory treatment against spirituals believes is a violation of some of the Human Rights. I moved in this country because is the best place to be free and we must to defend it. That was not same in mine. So I hope that you are going to defend this motion, for the safety of Los Angeles
