Comments for Public Posting: With all that is happening in the world or even in our city, it is time to allow the groups which devote themselves to the well being of others and contribute to making a better world to be protected and safeguarded. This is why I am very glad about this motion which would create a bubble zone around schools, health clinics, places of worship,... is in order to guarantee security for all. I am 100% saying YES for this law be passed.
