Comments for Public Posting: I have taken the CERT training a few times. I think it is a valuable resource and should continue. Is a vital part of keeping Angelina's informed and trained in case of an emergency. It's very important that we know how to help our family and our neighbors. Please make sure you vote to keep funding this wonderful program. We desperately need more resources for this program to expand. The Board of Fire Commission number which concerns this action, BFC 24-117
