Comments for Public Posting: I have been involved in the CERT program for close to ten years. It is a vital program unlike any other that is available. Our city needs to maintain, if not add, additional personnel and instructors to keep this life saving program going. It's not a matter, but rather a question of when the next huge disaster will hit our city. We are overdue for a major earthquake and only by training our citizens to be prepared will lives be saved. It's up to you to at least maintain the instructors that are now doing this critical work. I plead that you fund this program so that no instructors are reduced. Please recognize how important it is to every person that lives in this city. This program is not only a preventative measure but we are trained to deal with everyday situations. Thank you in advance for showing that you care about lives and that we can count on you to continue CERT at the current staffing level. Carol Ziegler, resident of Westchester in the City of Los Angeles

Comments for Public Posting: Please don't cut this program's budget. We live in an environment of extreme earthquake potential. It's important to keep the community educated on what to do in the event of any type of emergency. Sincerely Sam Fries
