Comments for Public Posting: I support Council File 25-0002-S19 that opposes SB79. SB79 effectively eliminates local control over land use matters, focusing even more control in far-away Sacramento. It ignores and results in the loss of locally created historic zones and carefully developed community plans, threatening the very fabric of thriving affordable, multi-family historic districts. It does not include or encourage affordable housing and is yet another attempt at land grabbing by powerful developers, fueled by their allies in Sacramento.
