Comments for Public Posting: I am glad to see the consideration of a CRD, which should have done a LONG time ago. But, it's better late than never. Now experiencing the LA City leadership in dealing with the recovery of Palisades, I urge the Council not only to quickly formulate a CRD, but be sure that you include members from the communities which have experienced unfortunate inciwhatdents, so that in fact the CRD can address the real needs. We have many knowledgeable local experts who have experienced "unprecedented" whatever. Please call on them to help the Council, not another out of state consultants which requires the city to help them get onboard at the expense of the city both in dollars and in time.
