Comments for Public Posting: I wanted to make sure that the City Council knew that as a victim of the Palisades fire on 1/7/2025 who is struggling to rebuild, the possibility of being charged a permit fee to rebuild a home that I never would have planned on rebuilding is unfair and punishment for being a victim of a natural catastrophe. If the Council votes to charge permit fees, many residents will have no choice but sell their lots to developers and struggle to find a new place to live, forever impacting the community of the Palisades. Not only is it unfair, there is no reason to require it for either the Palisades or Altadena since those permit fees were never calculated in the city's budget. Basically other parts of the city are picking at the "bones" of the destroyed lives of the residents and businesses in the Palisades and Altadena. PLEASE vote in support of waiving all permit fees for those residents who are rebuilding their homes and businesses lose due to the fires on 1/7/2025.

Comments for Public Posting: As one of thousands of Palisades residents who have lived through the fire and its aftermath, we urge you to waive these fees - they would not have been applicable and would not even have been a point of discussion had the fire not occurred. They only add to the numerous challenges already faced by displaced fire victims in getting back home - please do the right thing and waive these fees. Thank you.
