Comments for Public Posting: My wife and kids and I are life long Los Angeles natives and residents. Our house burned down in the fire. We are rebuilding because we won't leave LA. Please waive all Building Fees for us and all fire victims to help us and the city. More building will result in more property tax revenue and revenue for LA businesses. It's a long term win win for everyone. Thank you!

Comments for Public Posting: My family and I lost our home in the palisades and found out later we are grossly underinsured. Despite our broker and our bank telling us we had enough insurance, we have a nearly 1 million dollar gap. We need absolutely every penny saved in order to come back and provide our young children a home again. Please waive our rebuild fees so we can come home !
