**Comments for Public Posting:** Dear City Council, It is of utmost importance that you vote to approve a waiver of all city fees for people whose homes were destroyed in the Palisades fire who are rebuilding. Most families like ourselves will be significantly out of pocket in rebuilding due to the high costs of construction and the limits of insurance coverage. In view of the significant failures of the city in preventing and responding to the fire and the resulting disaster, this is the least you can do to help our community recover. Thank you.
