**Comments for Public Posting:** As design professionals, we are currently working on a single-family residence with an attached ADU fire rebuild in the Palisades. The plan checker has added an RUD housing clearance, which should be exempt under the Governor's Emergency Order N-29-25. Many other applicants are encountering the same issue. We respectfully request that the City consider revising its procedures to exclude fire-rebuild projects involving a single-family residence with an ADU from the RUD clearance requirement. This adjustment would help reduce plan check delays and prevent LAHD from being inundated with similar cases, allowing the department to focus on pre-fire buildings that are already subject to a three-month LAHD review process.
