

TRANSPORTATION

MOTION

The Palisades Fire either destroyed or displaced more than a dozen schools across the Pacific Palisades community. Prior to the Palisades Fire, two of these schools – Marquez Charter Elementary and Corpus Christi School – were served by crossing guards through the Department of Transportation's school crossing guard program.

Since the fires, many of these schools have been relocated with both Marquez Elementary and Palisades Charter Elementary relocating to Nora Sterry Elementary and Brentwood Elementary Science Magnet, respectively.

While this relocation has been a much needed source of continuity and stability for the displaced students, these schools have seen their student bodies effectively double overnight and are experiencing commensurate traffic impacts. To address the traffic hazards inadvertently created by these relocations, the guards previously assigned to the Palisades should be assigned to provide coverage to these schools.

I THEREFORE MOVE that Council instruct the Department of Transportation to reassign the same two crossing guards previously assigned to Marquez Charter Elementary School and Corpus Christi School to Nora Sterry Elementary School and Brentwood Elementary Science Magnet.
