Comments for Public Posting: Another useless motion on paper. Who is there to enforce parking? Parking enforcement in Sun Valley is practically nonexistent. Our streets are clogged with abandoned vehicles, vandalized cars, even stolen vehicles left for weeks without action, and even vehicles that are used to dwell in. Passing motions and resolutions looks good on paper, but they do nothing for the reality residents live with every day. Why waste everyone's time and resources on paper-pushing, when what this community needs is meaningful action and real-time enforcement? Please stop producing symbolic motions and start delivering results that actually restore safety and quality of life to our neighborhoods.
