Comments for Public Posting: I have mixed feelings regarding this motion. This motion is only aimed at protecting the new Tiny Homes Project, but how about the rest of Sun Valley. How about Truesdale St and Telfair Ave? How about Rincon Ave and Sheldon St? How about Sheldon St by the Sheldon Skate Park? How about Sharp St? How about many other streets? Again, all the unhoused individuals who refuse services will end up in the residential area. Sun Valley always has to give up one thing to receive another. If there is parking enforcement in this area, it means there will be none in the rest of Sun Valley. There are vehicles parking on sidewalks. There are body shops extending their businesses all the way to the sidewalks and streets. There are so many abandoned vehicles. Many residents of Sun Valley want to improve the quality of life of Sun Valley, but as more projects get approved, we see more lack of law/rules enforcement. There are businesses running from residential areas: body shops, car dealers, cannabis growers. We need motions that support parking enforcement for all stakeholders in Sun Valley!
