Hon. Councilmember Yaroslavsky,

Please do not take housing out of the supply so that wealthy individuals can gather more wealth. The housing crises continues and if the city council does not want more housing we certainly need all houses available filled.

The City Council is considering efforts to further study the Vacation Rentals Ordinance. I urge you to vote NO and stop a report on the ordinance from being brought back by removing Recommendation #5 of Item 17 on your Tuesday agenda.

.
