A Neighborhood Council Community Impact Statement (CIS) has been successfully submitted to your Commission or City Council. We provided information below about CISs and attached a copy of the CIS.

We encourage you to reach out to the Community Impact Statement Filer to acknowledge receipt and if this Community Impact Statement will be scheduled at a future meeting. Neighborhood Council board members are volunteers and it would be helpful if they received confirmation that you received their CIS.

The CIS process was enabled by the Los Angeles Administrative Code §Section 22.819. It provides that, "a Neighborhood Council may take a formal position on a matter by way of a Community Impact Statement (CIS) or written resolution." NCs representatives also testify before City Boards and Commissions on the item related to their CIS. If the Neighborhood Council chooses to do so, the Neighborhood Council representative must provide the Commission with a copy of the CIS or resolution sufficiently in advance for review, possible inclusion on the agenda, and posting on the Commission's website. Any information you can provide related to your agenda setting schedule is helpful to share with the NC.

If the CIS or resolution pertains to a matter *listed on the Commission's agenda*, during the time the matter is heard, the designated Neighborhood Council representative should be given an opportunity to present the Neighborhood Council's formal position. We encourage becoming familiar with the City Council's rules on the subject. At the Chair's discretion, the Neighborhood Council representative may be asked to have a seat at the table (or equivalent for a virtual meeting) typically reserved for City staff and may provide the Neighborhood Council representative more time than allotted to members of the general public. They are also permitted up to five (5) minutes of time to address the legislative body. If the CIS or resolution pertains to a matter *not listed on the agenda*, the designated Neighborhood Council representative may speak during General Public Comments.

We share this information to assist you with the docketing neighborhood council items before your board/commission. If you have questions and/or concerns, please contact the Department of Neighborhood Empowerment at empowerla@lacity.org.

Type of NC Board Action: For

Impact Information

Date: 06/26/2025

Update to a Previous Input: No

Directed To: City Council and Committees

Council File Number: 25-0141

City Planning Number:

Agenda Date:

Item Number:

Summary: The Los Feliz Neighborhood Councils strongly supports the city-wide adoption of programs similar to New York City's 2017 Citizen Air Complaint Program. In 2016, UCLA identified Los Angeles as "the city with the most fatal air pollution in the entire nation, with a total of 1,341 estimated annual deaths." An analysis by the Union of Concerned Scientists found that "African American, Latino, and Asian Californians are exposed to more PM2.5 pollution from cars, trucks, and buses than white Californians" by about 43, 39, and 21 percent, respectively. NYC's Citizen Air Complaint Program encourages community engagement in addressing the health crisis of vehicular pollutants by encouraging

reporting of vehicle idling for 5 minutes or longer. According to the NYC Department of Environmental Protection, the program collected more than \$2.4 million in fines between 2019 and 2022. This is a program that will pay for itself, and will have a large positive impact on the public health of LA residents.

Title: Air Pollution / Environmental Hazards / Wilmington / Citizen Air Complaint Program

Position: Support

Summary:

The Los Feliz Neighborhood Councils strongly supports the city-wide adoption of programs similar to New York City's 2017 Citizen Air Complaint Program.

In 2016, UCLA identified Los Angeles as "the city with the most fatal air pollution in the entire nation, with a total of 1,341 estimated annual deaths." An analysis by the Union of Concern Scientists found that "African American, Latino, and Asian Californians are exposed to more PM2.5 pollution from cars, trucks, and buses than white Californians" by about 43, 39, and 21 percent, respectively.

NYC's Citizen Air Complaint Program encourages community engagement in addressing the health crisis of vehicular pollutants by encouraging reporting of vehicle idling for 5 minutes or longer. According to the NYC Department of Environmental Protection, the program collected more than \$2.4 million in fines between 2019 and 2022. This is a program that will pay for itself, and will have a large positive impact on the public health of LA residents.
