Comments for Public Posting: Such a shame and embarrassment by city council women district 6 Imelda Padilla in punishing the Sun Valley by converting the Sun Valley Metrolink Station for Interim housing. Why not improve the Metrolink station to provide better service and safety measurements to the community and surroundings in Sun Valley. Sun Valley has a large "low income and transit dependent" population. The station consists of a single platform and is located in an industrial area far from residents, businesses and other transit connections. We need immediately to focus in brining a better plan in improving the quality, increasing number of businesses and prioritizing projects, and development, street repairs, green space and energy related– that increase equitable access to resources, eliminate vacant property, enhance public space. Also, in support of communities with amenities that families, youth, seniors and all adults can enjoy. The Sun Valley station has a travel time of 29 minutes to Union Station. Metro and Metrolink are currently working on a \$220 million project to upgrade the AV Line, which will allow for 30-minute bi-directional travel between Santa Clarita and Union Station. Stop immediately by moving forward with by changing this station to an intern housing and support the community needs and do your job right!
