**Council File No:** 25-0558

**Comments for Public Posting:** I support all biking protections even at the cost of car convenience and an increase in traffic. Increase protections for cyclist and biking infrastructure.

**Comments for Public Posting:** Better enforcing bike lanes – Item #5 (25-0558) Safety for cyclist will increase the amount of people who feel safe choosing to ride bikes in the city. Many people have stated that they would prefer to not bike and the number one cause is due to safety and not trusting a infrastructure that has been mainly put in place to support automobiles .Camera enforcement of bike lanes would ensure these lanes stay open for use, rather than blocked by cars Routine enforcement will raise much-needed funds for the city that could be used for infrastructure improvements. Keeping our bike lanes free of illegally parked cars clear keeps cyclists safe!
