Comments for Public Posting: I support CM Park & Padilla's proposed motion to restore the Neighborhood Council budgets to FY 24-25 levels and urge a YES vote on this motion. The Neighborhood Council system brings City government to the most local level, directly connecting constituents to the City through hyperlocal representation. It is low cost with high levels of volunteerism and extremely cost-effective for the city, with great return on investment. Keeping the Neighborhood Councils funded is simply a fiscally wise move and I am pleased to see this motion that proposes to do so.
