

**CITY OF LOS ANGELES**  
**INTER-DEPARTMENTAL MEMORANDUM**

Date: July 2, 2025

To: Honorable City Council  
c/o City Clerk, Room 395  
Attention: Heather Hutt, Chair, Transportation Committee

From: Laura Rubio-Cornejo, General Manager   
Department of Transportation

Subject: **REVISED FEE SCHEDULE FOR PARKING METER ZONE RATES, PARKING FACILITIES, AND PREFERENTIAL PARKING DISTRICT PERMIT FEES**

**SUMMARY**

As directed by Council File (CF) 25-0600, this report provides an overview of the revised fee schedules for parking meter zones and parking facilities operated by the Los Angeles Department of Transportation (LADOT), and LADOT's progress on revising Preferential Parking District permit fees.

**RECOMMENDATIONS**

That the City Council:

1. DIRECT LADOT to extend its daily hours of operation for daily on-street parking meters to 12 am in late night high activity locations and 8 pm in all other on-street metered areas, with exceptions on a case by case basis as determined by LADOT.
2. DIRECT LADOT to extend its hours of operation for on-street parking meters to include Sunday, with exceptions on a case by case basis as determined by LADOT.
3. DIRECT LADOT to report back to the City Council every five years to recommend any adjustments to the parking meter zone rates listed in the Los Angeles Municipal Code 88.00 that may be required to reflect changes associated with the consumer price index.
4. DIRECT LADOT to report back in 90 days with a proposed Preferential Parking District fee schedule.

**BACKGROUND**

On June 6, 2025, the Mayor and City Council adopted its annual budget resolution for Fiscal Year (FY) 2025-26. Within the budget instructions, LADOT was directed to prepare a revised fee schedule for parking meter zone rates, parking facilities, and Preferential Parking District (PPD) permit fees.

## DISCUSSION

Parking rates in the City's Parking Meter Zones have not increased since 2014 and LADOT only raised its fees on a larger scale at its parking facilities once in 2009. PPD permit fees were last increased by the City Council in 2008.

### Parking Meter Zones

Parking Meter Zone rates are established in the Los Angeles Municipal Code Section 88.00 and are set by ordinance. On June 13, 2025, the City Attorney submitted to the City Council a proposed ordinance (CF 25-0600-S39) to reflect a \$0.50 per hour rate increase requested by the City Council. This increase was fairly consistent with the Consumer Price Index increase since the last rate increase in 2014. Once the ordinance for the rate changes is adopted, LADOT will reconfigure the parking meter/pay station policies and inform pay-by-app partners to make requested parking policy changes. LADOT expects to have the new meter rates in place before September 30, 2025. As a potential future alternative, an increase of an additional \$0.50 for a total of \$1 per hour increase compared to last fiscal year's rates would be appropriate should the City Council direct LADOT to increase the rate. The additional \$0.50 increase has potential to double the revenue impact of the recently approved \$0.50 increase by earning an additional \$20 million over a full fiscal year. Also, by increasing the rates an additional \$0.50, the rates will be in dollar increments (ex. \$2 vs. \$1.50) making it easier for the public to understand how much change is required for each 15 or 30 minutes.

Parking meter rates are designed to encourage vehicle turnover to improve access to businesses. While most metered spaces operate from 8am to 8pm Monday through Saturday, these hours vary based on demand - some business districts end earlier at 6pm such as in San Pedro, or continue to have a high demand in the later evening hours such as Hollywood and Downtown. In many cases, extended meter hours of operation could create increased turnover and parking availability at the curb. Other areas such as Venice have higher parking demand during summer months on the weekends making the case to charge daily since the demand can be higher on Sunday than during the weekdays. The adjacent cities of Beverly Hills, Pasadena, Santa Monica, and West Hollywood charge for on-street parking daily.

By extending the hours of operation to include Sunday service, extending the hours from 8pm to 12am in entertainment districts, and from 6pm to 8pm in all other areas with exceptions determined on a case by case basis, LADOT estimates that these measures would result in an increase in projected gross annual revenues of an additional \$5.6 million.

Implementation of extended hours of operation may take up to six months to implement. This will provide LADOT time to conduct field investigations, prepare work orders, and fabricate and post updated parking signs to reflect the extended hours of operation. Therefore, the revenue projection for FY 2025-26 should conservatively assume half of the projected gross revenue mentioned above.

### Parking Facilities

On June 12, 2025, the Board of Transportation Commissioners adopted LADOT's recommendations to: 1) convert its 28 "free" off-street parking facilities to paid parking facilities with a rate of \$0.50 per hour and extended hours of operation to seven days a week; 2) increase the base parking rates by 50 percent rounded to the nearest nickel and extend operating hours to 7 days a week at LADOT's 54 non-operated parking facilities (facilities with parking meters or pay stations); 3) standardize and increase rates to be closer to market rates at LADOT's 28 operated parking facilities (staffed facilities with managed entry and

exit); and 4) extend operating hours for some of its facilities. In addition to these changes, the Board approved using industry standard formulas to help determine daily maximums, monthly permits, and overnight parking permits. The adopted rates are attached in Attachments A, B, and C. LADOT expects to have the new rates in place at most of its operated and non-operated facilities before August 31, 2025 with the exception of facilities that require approval from the California Coastal Commission. The 28 “free” parking facilities will require additional time to become paid facilities since LADOT will need to conduct field investigations, prepare work orders, fabricate and post updated parking signs, and order new parking meters and/or pay stations. It is anticipated that “free” lots will begin converting to paid lots by winter in early 2026.

To keep pace with inflation and the consumer price index, LADOT is committed to reviewing its off-street parking facilities rates on a triennial basis to ensure that off-street parking operations are sustainable, and that the Department is appropriately pricing parking to help meet the supply and demand.

#### Preferential Parking District (PPD) Permits

As part of the budget, LADOT was asked to review PPD staffing and expenses to ensure that available funds were being maximized in order to provide service as well as prevent potential layoffs. LADOT is currently in the process of realigning staff and services department-wide based on the impacts of position reductions in the 2025-26 Adopted Budget, and includes shifting resources to the PPD program and additional time to evaluate if new proposed PPD permit fees are needed. LADOT expects to complete its evaluation and make recommendations, if needed, to the City Council during the first half of FY 2025-26. Should the City Council approve the recommendations, an updated ordinance would need to be adopted for any new fee changes to take effect.

#### **FINANCIAL IMPACT STATEMENT**

There is no negative impact to the General Fund. The 2025-26 Adopted Budget assumes \$14.4 million in additional revenue from increased parking meter rates as described in this report. Conservatively, implementing the new parking facility rates and extended hours of operation for parking meters have the potential to generate at least \$1.7 million in total gross revenue in FY 2025-26 if implemented by January 1, 2026. The Department will report back on additional parking revenue estimates to help inform the 2026-27 budget process.
