Comments for Public Posting: My name is Faye Espiritu, and I live in CD11. Thank you to the Budget, Finance, and Innovation committee for not only approving the Mayor's proposal to continue the Unarmed Model of Crisis Response (UMCR) pilot but also EXPANDING it to 3 additional police divisions. As the Council finalizes the budget, I am asking that you retain the Mayor's proposed budget allocation of \$9.376 million AND approve the \$4.4 million for expansion as recommended by the Budget committee as UMCR not only provides crucial services to assist some of the most vulnerable Angelenos but also saves LA taxpayers money. The average call responded to by a UMCR team only costs the city \$35 whereas a police response to a call of the same type and duration costs \$85. We at LA Forward see UMCR as part of the City's long-term commitment to establishing a 24/7, comprehensive city-wide,unarmed crisis response program. The current proposed funding will allow UMCR to provide critical coverage to almost 43% of the city, and we look forward to the City Council allocating funding to expand the program to cover 100% of the city in the coming years. Sincerely, Faye

Comments for Public Posting: May 20, 2025 Dear Honorable Mayor Karen Bass, City of Los Angeles Councilmembers including local CD 1 Councilwoman Eunisses Hernandez, and DCA General Manager, Daniel Tarica: My name is Margie Brown-Coronel and I am a parent and community member at the Lincoln Heights Youth Art Center (LHYAC). I am writing to express my strong opposition to the budget cuts to the Lincoln Heights Youth Arts Center and other Department of Cultural Affairs Community Arts Centers proposed in the City of Los Angeles Fiscal Year 2025-2026 budget. As a parent and community member, the Arts Center has made a profound impact on my child's life. For the past year, my child has served as an intern with LHYAC. As an aspiring artist, Max has learned not only the valuable skills of how a community based arts center operates, but how critical these spaces are to exposing children and communities to the arts. Assisting with events, Max personally witnessed the impact it has made in the students and families who have benefited from LHYAC's multidisciplinary arts program and various cultural events in the predominantly Latino and Asian immigrant community of Lincoln Heights. For example, Max documented a recent event that celebrated the history and art that emerged from the Chicano Movement. He learned so much about how art can be a medium for social change and community empowerment. A reduction in these services would leave a void in our community. The local community of Lincoln Heights is predominantly low income and deserves to receive fair funding towards the arts in our own backyard. We ask that the City's budget be allocated equitably to support the full time staffing needed for the Center to continue providing high quality arts education and culture programming to everyone. Please do not put the center on the chopping block. We really need this space in our community. We call on you, our elected leaders, to: ? Immediately halt any proposed budget cuts to the Lincoln Heights Youth Arts Center and other DCA Community Arts Centers. ? Recognize these centers and the services they offer as essential to public health and safety, youth development, education, community pride, and cultural heritage. ? Work collaboratively with community members to ensure sustainable funding for the arts and youth programming across Los Angeles. Investing in our youth and underserved

communities is investing in the future of Los Angeles. We respectfully urge you to do the right thing as the leaders of one of the most recognized arts capitals of the world - Keep the heart and soul of our City alive by keeping LA's DCA Arts Centers open, funded, and thriving! Thank you for your time and consideration. Respectfully, Margie Brown-Coronel (constituent of CD #1) 4210 Berenice Avenue Los Angeles, CA 90031

In Re: Council File Number: 25-0600

Good day,

My name is Rd Plasschaert.

I cannot come in person to the Council meeting on 5-21-2025, due to my health issues.

As a senior disabled person, residing CD1; and as a person with lived experience in various subject matters that include mental well-being; housing insecurity; food insecurity; medical insecurity, the matter of the City budget affects my ability to live, my health and safety, and my community well-being.

Thank you to the Budget, Finance, and Innovation committee for not only approving the Mayor's proposal to continue the Unarmed Model of Crisis Response (UMCR) pilot, yet also EXPANDING it to 3 additional areas.

As the Council finalizes the budget, I ask you leave the Mayor's initial \$9.376 million dollars of funding alone, AND approve the \$4.4 million for expansion as recommended by the Budget committee.

The UMCR is part of the City's long-term commitment to establish a 24/7 comprehensive city-wide unarmed crisis response program, and the current proposed budget grows UMCR to almost 43% coverage of the city.

I look forward to council expanding the program to 100% of the city in the coming years.

Thank you

Rd Plasschaert

Comments for Public Posting: To whom it may concern, We worked with Eva Bitar as Motion Picture and Television Manager for the HGTV Very Brady Renovation in 2018/2019. Eva and her department were pivotal in our needs to film this important renovation and make the house in Studio City as exact to this iconic show as possible. Eva was a great liason and answered all of our questions. She set up the right meetings with the right stake holders between the mayor's office, public works, etc. I found her role and position pivotal to this (and other) productions. I do not think we could have completed this project, with its exactness, without her. Sincerely, Dylan Eastman

Comments for Public Posting: The LADOT Crossing Guard Unit is a vital Ambassador to a safe passage for students and other pedestrians. Crossing Guards provide safety skills for crossing the streets that may or may not have traffic lights, signals, signs or painted crosswalks. In most assigned areas, the Crossing Guard is the traffic signal. They are the safety buffer between the traffic and students/pedestrians. There has been several incidents, where the presence of a Crossing Guard has prevented the kidnapping of a child and the potential of a hit and run. There are students who walk to school alone and feel safe because they know the Crossing Guard is present to assist and direct them. There are countless parents who can't escort their child to school and they trust the duties of a Crossing Guard to provide a safe passage for their child to reach the school door. Crossing Guards have pride in performing their jobs. All Crossing Guards perform their duties in "ALL WEATHER CONDITIONS" and honor the Oath they made. This job allows the average Crossing Guard to provide for their families, maintain a household and livelihood. Without this employment, it would be a great injustice to many. On behalf of all LADOT Crossing Guards, I respectfully ask Mayor Karen Bass and each City Council Member to, "NOT CUT THE LADOT CROSSING GUARDS FROM THE CITY BUDGET." It is a pleasure to be of service to the City Of Los Angeles.

Comments for Public Posting: I'm writing to support the budget increasing spay/neuter funding for cats and funding the Citywide Cat Program through the end of the fiscal year. You'll be hearing from a lot of other smart, driven people on the same topic, so I'll just say that the money required to make an absolute difference in the lives of creatures who are fully dependent on us is the very definition of compassion. I have fostered a few dozen cats whom the system failed - in other words, people adopted them from shelters thinking they could get them fixed later, only to find the price of spay/neuter had skyrocketed. And with no choice, these pregnant animals got dumped on the street. That doesn't have to happen. You can still buy another bajillion helicopters if you think that's important, but maybe just get ONE helicopter without the fancy reclining seats and instead spend that tending to those without a voice. It will truly make a difference.

Mayor Karen Bass
Councilmember Ysabel Jurado
Honorable Members of the Los Angeles City Council

Dear Mayor Bass, Councilmember Jurado, and City Council Members,

We're writing on behalf of the Downtown Los Angeles Residents Association (DTLA RA) and the more than 2,300 renters, homeowners, and community stakeholders we represent to urge you to pass a 2025-26 City budget that values, supports, and invests in our neighborhood -- for the good of DTLA, and for the good of the entire City.

DTLA is home to 100,000 Angelenos. Our community is dense, diverse, vibrant, and primed to contribute meaningfully to Los Angeles' forward progress and evolution through and beyond this budget crisis. DTLA is one of the City's major economic engines and consistent sources of revenue—accounting for more than 40% of all business and sales tax revenue. When our neighborhood thrives, all Los Angeles thrives with it. We're facing historic challenges that demand bold leadership and urgent investment now so our City can avert challenging moments like this one in the future – and so we can be prepared to be hosts on the world stage with the many upcoming opportunities that will put our home in the spotlight beginning in just one year with the FIFA World Cup in 2026.

We ask you to include the following six resident budget priorities in your 2025-26 budget. They address the top-rated concerns and solutions raised by our community and Board as identified through our first-ever DTLA Community Budget Advocacy Survey and Petition.

1. Redirect Homelessness Spending Based on Community Input

Downtown cannot continue to be the epicenter of LA, the region, and the Country's homelessness crisis, while other neighborhoods and communities turn their backs on their own vulnerable populations. From Skid Row to the Historic Core and beyond, the human suffering we witness on the streets of Downtown is

unacceptable. The City must stop pouring money into programs and services that don't deliver results for Downtown and its residents. Recent audits and our day-to-day experiences show the current system isn't moving the needle meaningfully to solve homelessness in Downtown – instead, existing approaches are perpetuating an unconscionable status quo. We're asking the City to reassess how homelessness funding is spent in DTLA so that investments produce measurable, visible results – and we ask you to engage Downtown residents in this reassessment. When programs fail to address worsening street level conditions in our neighborhood, the City must course correct. Our neighborhood is already under-resourced when it comes to supporting basic residential and community needs in Skid Row and beyond. More of the same simply isn't enough when we can't solve the problems before us or support the people in our DTLA neighborhood and on our streets. Residents are watching. We need real oversight, real accountability, and real solutions to homelessness in Downtown—now.

2. Supercharge Mental Health First Responders in DTLA

DTLA sees more public mental health crises than any other neighborhood in the City. But current unarmed response programs—like CIRCLE—aren't beginning to meet the scale of need. Paramedics, firefighters, and residents agree: the system is underpowered and overstretched. We urge you to dramatically boost funding for Downtown-based mental health response, expand service hours, and add clinical staffing so that people in crisis can get the care they deserve—and so that our streets get safer in the process.

3. Fund Faster Repairs of DTLA's Street Lights

Too many Downtown streets go dark far too often, and the City's inability to promptly effectuate repairs—current estimates for repair queues are approximately a year—keep our neighborhoods dark, and our streets unsafe. We urge the City to allocate dedicated overtime funding for Bureau of Street Lighting engineers to prioritize and fast-track repairs in DTLA. Lighting is safety. Lighting is dignity. The City must act with urgency to restore both.

4. Invest in Overtime Funding for Community-Based Safety Patrols

Downtown needs smart, visible, and community-centered public safety solutions. Most residents surveyed support targeted overtime funds to ensure that DTLA has community policing that is commensurate with the negative perceptions of safety and reality of crime and disorder on the ground in our neighborhood. Many DTLA resident survey responders have requested LAPD foot beat and bike

patrols, which can build community trust, improve response times, and de-escalate street-level issues before they spiral. While sworn officers are not the solution for every problem, and bad actors within the department must be held accountable, the majority of resident respondents see community-based policing as a necessary part of a healthy, vibrant Downtown, and want the City to invest accordingly.

5. Create a Downtown Innovation Zone: Fuel Downtown's Small Business Comeback

Downtown's economy won't recover on its own. The City must invest in small business stimulus that drives job growth, reactivates storefronts, and drives revenue. We urge you to expedite and streamline Downtown business permitting, launch targeted grant and loan programs, and remove barriers that stifle innovation. Every small business opening in Downtown faces challenges; navigating a byzantine municipal permitting process should not be one of them. DTLA's local entrepreneurs, many of whom are residents, are ready to lead a comeback—if the City clears the path. We urge you to work with community stakeholders to establish a DTLA Innovation Zone by funding local business incentives and leveraging this challenging moment to make it faster and easier to work with the city on permitting and other roadblocks to operate in our neighborhood.

6. Fund a Long-Term Downtown Infrastructure Financing Strategy

Downtown is at a pivotal moment. Record-high office vacancies and reassessed property values have reset our tax base just as the City must urgently invest in housing, climate resilience, and public-realm upgrades. **We urge Councilmember Jurado and Council District 14 to allocate \$500,000 to evaluate and develop an Infrastructure Financing Plan (IFP) for a Downtown Enhanced Infrastructure Financing District (EIFD), Climate Resiliency District (CRD), or Community Revitalization and Investment Authority (CRIA).** These tools—backed by California and federal law—can unlock billions over decades by channeling rising land value and private capital into community priorities, without requiring new general-fund taxes. Cities across the state are leveraging them. It's time for Los Angeles to lead—and Downtown is the place to start.

These cornerstone investments will ensure that in this moment of crisis, the City is prioritizing a strong, economically vibrant, and resilient Downtown that centers the needs of its residential community. Downtowners want a budget that reflects

our contributions, our challenges, and our potential, and we're asking you to be our champions for our community this budget cycle and beyond. We stand ready to partner with you, support you as you advocate, and ensure these investments result in meaningful community improvements.

We would love to meet to discuss these priorities with you to ensure they make it into the final budget. We're sincerely grateful for your time, support, and investment in a better Downtown.

Thank you for your care and attention,

Brandy	Combs	South Park	
Francisco	Contreras	Historic Core	
Eric	Cooper	Sherman Oaks	
Linda	Cordeiro	Historic Core	Lighting, all DTLA parks, and safety are a priority. You need to please include the park at First and Broadway (FAB) as a priority. Kevin De Leon killed it by siphoning and transferring all the remaining millions out of that project into East LA projects and Pershing Square to support his own campaign efforts. He was also last-minute trying to burnish his "homeless advocacy" credentials by proposing putting a temp homeless shelter there - at the civic, historic, and tourist heart of DTLA. No regard for the Historic Core. Even Recs and Parks advised repeatedly that he use the remaining millions to install a more modest park there than the originally proposed \$25+ million dollar plans, and he refused. Instead, he drained a fund that was targeted for our neighborhood. We got screwed. Sorry for the strong language but a lot of us in the Core were and remain really upset about this. We organized against this and won. We plan to move on this with DLANC and CD-14. Your support would be invaluable. Also, they need to clean up the square at 3rd and Main. Once again, KDL installed a chain link fence and a few pots there after a murder. Pots now hold dead plants. It's an eyesore. No planning, no foresight. Pershing Square is another DTLA disaster - we residents can't even walk it - imagine what the tourists think.

226 letter signatories and 78 supporting public comments below

			dirty parking lots, and underused buildings—something clearly isn't working. Cities like Copenhagen, Barcelona, and Amsterdam have shown how smart urban planning—walkable neighborhoods, mixed-use development, and vibrant public spaces—can bring life back into city centers. DTLA needs that same vision.
Josh	Gray-Emmer	Historic Core	DTLA is the economic engine of our great city but receives only a small portion back in funding and investment, please change that!
Sebastiaan	Gregoir	Historic Core	
Nicholas	Griffin	Financial District	Downtown is the economic and cultural center of the city and hub of the transit system, thus its health and vitality impacts the whole city. It is a major tourist destination, particularly for major events, thus its safety and appeal impacts the image of the whole city. But it is also one of the city's biggest residential neighborhood with almost 100,000 local residents and a density of businesses 10 times that of the rest of the city. For all of those reasons, DTLA requires and warrants a higher level of investment to support the public realm than other parts of the city. That may sound inequitable, but it is just the truth that many more people use downtown - both locals, visitors, workers, and businesses - and thus there are more demands on its infrastructure, public spaces, and services. And that needs to be supported if is to be the center the city needs.

Comments for Public Posting: My name is Sarinea Meserkhani, and I live in La Crescenta. Thank you to the Budget, Finance, and Innovation committee for not only approving the Mayor's proposal to continue the Unarmed Model of Crisis Response (UMCR) pilot but also EXPANDING it to 3 additional police divisions. As the Council finalizes the budget, I am asking that you retain the Mayor's proposed budget allocation of \$9.376 million AND approve the \$4.4 million for expansion as recommended by the Budget committee as UMCR not only provides crucial services to assist some of the most vulnerable Angelenos but also saves LA taxpayers money. The average call responded to by a UMCR team only costs the city \$35 whereas a police response to a call of the same type and duration costs \$85. We at LA Forward see UMCR as part of the City's long-term commitment to establishing a 24/7, comprehensive city-wide, unarmed crisis response program. The current proposed funding will allow UMCR to provide critical coverage to almost 43% of the city, and we look forward to the City Council allocating funding to expand the program to cover 100% of the city in the coming years. Sincerely, Sarinea Meserkhani

Date Submitted: 05/20/2025 08:52 PM

Council File No: 25-0600

Comments for Public Posting: My name is Eva Bitar. I am the Motion Picture and Television Manager in the Board of Public Works. My position is to assist film productions in streamlining the filming process. I serve as the FilmLA contract administrator and as the Citywide film liaison between the film industry, City departments, residents, businesses, and government partners (LA County, and the State). My role is to find a common ground among all these parties so filming can flourish. I have served in this role for nearly 20 years and have the institutional knowledge and have proudly brought the city the "2015 California on Location Award in the category of Public Employee of the Year" where filming clients nominate you for professional excellence in creativity, problem solving, leadership, and outstanding achievement for the vital role I play in helping to keep high quality filming in California. 17 years ago, I established the Citywide Filming Taskforce that met quarterly, which included liaisons from City Departments, industry partners, government liaisons to share dialogue in understanding procedures. I streamlined multiple processes to assist the film industry and provided City departments training. I built a solid network. While the Covid Pandemic followed by two industry strikes hit the industry hard, I created city procedures and partnered with the County to allow filming safely during the pandemic. In the meantime many infrastructures were built in other states and countries that took much business away from us as we were not able to compete with the external incentives. The City's consistent current message even in today's Mayor press conference has been to commit to bringing back the industry. Eliminating my position is contrary to the City's message. I am the sole person that provides the daily operation assisting the industry, who respects and depends on me to creatively solve issues to assist these productions. Every production I assist brings in at least \$100,000. Each TV Episode generates one million in jobs and trickle down economic revenue for at least two thousand businesses. It is essential to restore my position so I can continue to serve our signature industry. I urge you to vote to keep my position so we can work together to bring back these essential jobs. Thank you for your consideration Eva Bitar Motion Picture and Television Manager 213-344-8498

Comments for Public Posting: Our dog park (the Sepulveda Basin Off-Leash Dog Park) was voted one of the 5 BEST in Ca. <https://dogtrekker.com/top-5-dog-parks-in-california!> Our community has has a petition against this unnecessary bike path which threatens to close this dog park (the only dog park for three council districts 3, 6 & 12), during construction for up to a year and a half... The bid is out at \$66M (with (2017 estimate for the 3 miles from Van Alden to Balboa) with a \$17M shortfall. The 1.06 mile between White Oak and Balboa is estimated to cost between \$20M-\$30M because it is on the river. They could just connect to the Victory (350' away and Oxnard Path (1/3rd of a mile away) and maybe fund this and get this done without taking more out of the general fund. But in the meantime, Mayor Bass's budget has \$7M from the general fund dedicated to this shortfall! (Which STILL leaves a \$10M shortfall after almost ten years of trying to raise the funds.) This path includes lights every 100ft which has copper that will be taken as soon as installed and they are aware of this. But everyone seems to be willing to build an unsafe bike path which will have no lights almost immediately after construction, if not during. No security or maintenance in this bid. This is consciously adding it to the cities budget for replacement going forward adding it to all the other streetlights are out all over the city as we all know. Stop throwing away money. When a 3 mile bike path costs half of what a 194 affordable housing complex costs, someone should take a minute and start taking our city seriously. And one of the best 5 dog parks in CA, which hosts more park users than this bike path will ever see has a \$25k a year budget and sits in the dark in the evening when working people need it most. Note to Imelda: "Every park is dawn to dusk until it gets lights.") One dog park for 3 council districts is less important than building a 3rd bike path with two bordering each side of it. Please use common sense, no one cares if this bike path is 51 or 50 miles. \$7M dollars is a lot of money to a community. Please use it wisely.

Council File No: 25-0600

Comments for Public Posting: I understand that the funding for the Crossing Guard program has been settled for this upcoming school year. Thank you for your support. My concern is future funding. We (Crossing Guards) were informed that you were trying to replace us with Traffic Officers, who are full time benefited employees who can clock in overtime and whose salary ranges from \$70-100k annually without overtime. We are employees making less than \$25 hr about \$20-25k annually working an average of 2 1/2 hours, with no employees benefits and zero chance of overtime.

Councilmembers: The math to replace us with Traffic Officers does not make sense. It does not add up. What am I missing?? As a taxpayer and Angelina, I AM CONCERNED WITH THIS MATH. You sit in those chairs because, we taxpayers have voted you in. Please make the math make sense. Also, you were trying to replace us with volunteers. As a former LAUSD parent who was very active in school administration and parent committees, I can tell you this will not work. Getting volunteers to be committed to the Cross Guard commitments rain or shine will be close to impossible. Again, I am concerned with the future wellbeing of the CG program, the two subjects that were suggested as replacements to our current student/public safety CG will not work. The math does not add up and by personal experience I can tell you, one cannot count on volunteers being present 100% in rainy/hot weather. Thank you.
