Comments for Public Posting: I have many concerns about the proposed L.A bill that would gut the Department on Disability — slashing over 20% of our total budget and eliminating over one-third of its staff. The work we do here is important to guarantee that individuals receive the resources, services and advocacy they need. This bill will force the Department of Disability to cancel or significantly reduce programs that are required by law and essential to our most vulnerable communities. I implore you to listen to your better conscious and reconsider this bill because this community of individuals will be severely affected by the proposed cuts. It's a direct threat to the services that protect the rights, safety, and dignity of people with disabilities across Los Angeles.
