**Comments for Public Posting:** I am frankly disgusted and immensely disappointed in the proposed budget. We do NOT need more policing and this bears an uncanny semblance to the rising facism and hostile militarization much of the country is facing. I cannot remember a single time my any of my friends or acquaintances even in “crime” ridden areas thought police budgeting was the problem. In addition the proposed budget would DECIMATE our disability department in the wake of a mass disabling event (Covid). I am extremely proud of my city we are in essence one of the last hold outs against this current administrations efforts to destroy social programs. Yet we respond by diminishing our own? We already struggle with homelessness and without these life saving programs many of our disabled population who is no longer able to be supported would be forced out onto the streets we’re trying to CLEAR. With the addition of our programs for the homeless now cut. In essence this budget goes against EVERYTHING Los Angeles our city of Angles stands for.
