Comments for Public Posting: Hon. Council members, I am writing as an individual, and I would like to see more Green Space and Local Parks. We keep talking about building more “affordable” housing but the real issue is the affordability crisis, and lack of green space. I would like to see more parks across the city of Los Angeles. There is too much density and land development across the city and not enough parks for outdoor activities and recreation. I urge the city council to convert some parking lots into green space and parks. Currently, I am actively participating in the LA PARKS NEEDS ASSESSMENT to advocate for more parks and recreation in the City of Los Angeles.
