**Comments for Public Posting:** Councilmembers, I urge you to keep parking minimums in place. Lack of parking will NOT make people give up their cars (only making public transportation a viable option will, which it currently is not). I live on a block that is all apartments each of which has one parking space per unit. Even so, it is nearly impossible to find parking on the street. People routinely stop their cars in the middle of the street, which increases the likelihood of an accident. Tenets have to park their cars on other blocks. One of my neighbors gets home at 1:30 AM and has to park a quarter mile away, putting her safety at risk. Having to look for parking increases air pollution and GHG emissions. Imaging what it would be like if there were less parking for those apartments. Please do not give developers a gift that will cost tenets their safety. Keep one space per unit parking minimums in place. Thank you, Ann Dorsey Northridge, CA
