

MOTION

Recent reports and community concerns have raised questions regarding the presence and activities of U.S. Immigration and Customs Enforcement (ICE) in and around the Port of Los Angeles, including off-site terminals, warehouses, and associated logistics facilities.

Given the Port's significance as a major economic driver and point of access for thousands of workers, it is critical that we understand what protocols exist regarding ICE enforcement actions within this area and ensure that such actions are transparent, legally sound, and respectful of community rights.

I THEREFORE MOVE that the Los Angeles Port Police, in coordination with the Port of Los Angeles, be requested to report back on current procedures, protocols, and jurisdictional roles related to federal immigration enforcement or engagement in and around Port property, including off-site terminals, warehouses, and other Port-adjacent operations.

I FURTHER MOVE that the report include recommendations to establish clear guidelines and communication procedures for any future federal enforcement activities in or around the Port, and how the City can ensure accountability and protect the rights of residents, workers, and all community members.
