Honorable Bob Blumenfield, Chair
Planning and Land Use Management (PLUM) Committee
Los Angeles City Council
200 N. Spring Street
Los Angeles, CA 90012

Case No. CPC-2018-6404-CPU

Dear Councilmember Blumenfield:

On behalf of the community members I represent who have watched this process unfold over many years, I am proud to express full support for the Wilmington–Harbor City and Harbor Gateway Community Plans.

These plans reflect countless hours of outreach, engagement, and collaboration with residents, businesses, and stakeholders. They demonstrate what is possible when communities are given a true voice in shaping their future. The Planning Department has worked diligently to ensure that these plans reflect not just technical zoning updates, but also the real priorities and values of the people who live and work here.

The community plans address longstanding land use conflicts, protect sensitive uses, and create a framework for healthier, more balanced neighborhoods. They acknowledge past challenges while laying out a vision that combines environmental justice with thoughtful economic development.

We believe these plans will strengthen the quality of life in our communities, safeguard public health, and provide opportunities for future generations. We encourage the PLUM Committee and, ultimately, the City Council to move these plans forward with approval.

Thank you for your leadership and your commitment to creating a more sustainable and equitable Los Angeles. Should you have any questions, please contact my Planning Director, Pamela Thornton, at (213) 473-7015 or via email at pamela.thornton@lacity.org.

Sincerely,

TIM McOSKER
Councilmember, 15th District
